

FINAL PUBLIC NOTICE

The Federal Emergency Management Agency (FEMA) has received the subgrant application for Florida Department of Corrections building damages in Miami-Dade County for facility repairs due to Hurricane Irma (DR-4337-FL PW-08345 PN 36820). Pursuant to Executive Order 11988 and 44 CFR Part 9.12, final notice is hereby given of FEMA's intent to provide funding for this project under the Public Assistance (PA) Program.

An initial disaster-wide Public Notice was published October 6, 2017 for Hurricane Irma. Comments and other information received were fully evaluated by FEMA along with evaluation of social, economic, environmental, and safety considerations. This notice serves as a project-specific final notice for FEMA's funding action located within the floodplain.

Funding for the proposed project will be conditional upon compliance with all applicable federal, tribal, state, and local laws, regulations, floodplain standards, permit requirements and conditions. This action complies with the National Flood Insurance Program (NFIP) requirements.

Responsible Entity: FEMA Public Assistance (PA) Program

Applicant: Department of Corrections

Project Title(s): PA-04-FL-4337-PW-08345 PN 36820 - Dade - Multiple Building Damage 2

Location of Proposed Work: Dade Correctional Institution, 19000 SW 377th Street, Florida City, FL 33034

Floodplain: Project sites (6) are located in the A zone, otherwise known as the area of 1% annual chance of flood, per Miami-Dade County FIRM Panel # 12086C0740L dated 09/11/2009.

Proposed Work and Purpose: The Department of Corrections replaced roofing and roof components, exhaust fans, ceiling fans and light fixtures, and made repairs to drywall and paint for buildings at Dade Correctional Institution that were damaged as a result of high winds and heavy rain from Hurricane Irma.

Project Alternatives: The alternative that has been considered is the no action alternative. This alternative is not feasible as the area will remain vulnerable to flood risk, including property damage and hazards to human life and safety. With the no action alternative, continued negative impacts on the community may be experienced. Alternate locations were not considered as relocating the facility is not a practicable, cost effective alternative.

Comments: This will serve as the final public notice regarding the above-described action funded by the FEMA PA program.
