## 115.71 Criminal and administrative agency investigations

**Auditor Overall Determination:** Meets Standard

### **Auditor Discussion**

FDC Procedures 602.053 and 108.003 and the PREA Incident Tracking Log were reviewed and address the requirements of this standard. The procedures require that an administrative or criminal investigation is completed for all allegations of sexual abuse and sexual harassment. Allegations reviewed by Madison CI are promptly reported to OIG and the Management Information Notification System (MINS). OIG conducts its investigations using uniform evidence protocols.

An interview with the OIG Investigator indicated that the credibility of an alleged victim, suspect, or witness is assessed on an individual basis and not determined by the person's status as an inmate or staff member. He also indicated that by procedure they do not require the inmate who alleges sexual abuse to submit to a polygraph examination or other truth-telling devices as a condition for proceeding with the investigation of such an allegation. The Investigator detailed the investigative process to the auditor. The typical case involves gathering and preserving direct and circumstantial evidence, including available physical and DNA evidence, available electronic monitoring data, conducted interview notes with alleged victims, suspected perpetrators, and witnesses, and also includes reviewing any prior complaints and reports of sexual abuse involving the suspected perpetrator. The departure of the alleged abuser or victim from the employment or control of Madison CI does not provide a basis for terminating any investigation. The auditor reviewed all closed case files for the past 12 months found the investigation report to include a description of the incident, the evidence collected, and summaries of interviews and findings.

In the past 12 months there were 30 allegations of sexual abuse/harassment reported. All 30 allegations were referred to OIG. There were eleven (11) allegations of staff sexual misconduct and one (1) allegation of staff sexual harassment. Five (5) of the allegations were unfounded and the remaining seven (7) investigations remain open. There were eleven inmate-on-inmate sexual abuse allegations, three (3) of the investigations were closed with a finding of unfounded and the remaining eight (8) remain open. There were seven (7) allegations of inmate-on-inmate sexual harassment, four (4) of the investigations were closed with a finding of unsubstantiated and three (3) remain open. There were no substantiated allegations that were referred for criminal prosecution.

The investigator provided documentation of annual PREA training and the specialized training for PREA investigators. When conducting administrative investigations, the investigators always decide whether staff actions or failures to act contributed to the abuse. FDC retains all written investigation reports for as long as the alleged abuser is incarcerated or employed by the agency, plus five years.

A review of procedures, the training curriculum, investigative file and interview with investigator confirm Madison CI is compliant with this standard.

A review of the investigation file revealed that victims are notified of the outcome of investigations unless the victim had been released prior to the conclusion of the investigation. The notifications are documented on the OIC Complaint Review Report.

A review of procedures, investigative file and interview with the Warden and OIG Investigator confirm Madison CI is compliant with this standard.

Staff members are subject to disciplinary sanctions for violating agency sexual abuse or sexual harassment policies. Termination is the presumptive disciplinary sanction for staff who have engaged in sexual abuse; and disciplinary sanctions for violations of agency policies relating to sexual abuse or sexual harassment (other than actually engaging in sexual abuse) shall be commensurate with the nature and circumstances of the acts committed, the staff member's disciplinary history, and the sanctions imposed for comparable offenses by other staff with similar histories. ### **Auditor Discussion**

FDC Procedure 602.053, FAC Chapter 33-601-301 Inmate Discipline, Chapter 33-601314 Prohibitive conduct were reviewed and address the requirements of this standard. Inmates are subject to disciplinary sanctions following an administrative finding that the inmate engaged in inmate-on-inmate sexual abuse or following a criminal finding of guilt for inmate-on-inmate sexual abuse; sanctions are commensurate with the nature and circumstances of the abuse committed the inmate's disciplinary history, and the sanctions imposed for comparable offenses by other inmates with similar histories. The disciplinary process takes into consideration whether an inmate's mental disabilities or mental illness contributed to his or her behavior. The facility will only discipline a inmate for sexual contact with staff only upon a finding that the staff member did not consent to such contact. Policy states a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred will not constitute falsely reporting an incident or lying, even if an investigation does not establish evidence sufficient to substantiate the allegation. In the past 12 months, there have been no inmate on inmate administrative or criminal sexual abuse findings. Madison CI prohibits all sexual activity between inmates and disciplines inmates for such activity. Interviews with mental health staff indicates the facility offers therapy and/or counseling to inmate sexual abusers.

## **115.81 Medical and mental health screenings; history of sexual abuse**

**Auditor Overall Determination:** Meets Standard

### **Auditor Discussion**

FDC Procedure 602.053 was reviewed and addresses the requirement of this standard. The procedure states if the results of an SRI assessment or medical assessment indicate that an inmate has experienced prior sexual victimization, or has previously perpetrated sexual abuse, whether it occurred in an institutional setting or in the community, the inmate shall be offered a follow-up meeting with a medical or mental health practitioner within fourteen (14) days of the screening.

Interviews with Classification staff indicated that while conducting risk assessment (SRI) if they becomes aware through other information or through the assessment that the inmate was ever victimized or ever perpetrated sexual abuse, whether it occurred in an institutional setting or in the community, the inmate is offered a follow-up meeting with a mental health practitioner within 14 days of the intake screening. The computerized SRI assessment automatically notifies medical and mental health once the individual performing the assessment checks prior victim or prior abuser. If medical staff makes a referral to mental health for a victim or perpetrator a paper copy of a referral is used.

The auditor interviewed mental health staff and confirmed a mental health screening evaluation is completed and documented. Informed consent is obtained for inmates who were victimized, not in an institutional setting. Madison CI does not house inmates under age 18. This informed consent is documented. A review of the mental health screening report indicates inmates are seen within 7 days of a referral. The auditor interviewed inmates who disclosed prior victimization either upon arrival at Madison CI or it was noted in their record. All of them indicated they were referred to medical or mental health.

The procedure mandates that information relating to sexual victimization or abuse that occurred in an institutional setting shall be strictly limited to medical and mental health practitioners, and other staff as necessary, to inform treatment plans and security and management decisions, including housing, bed, work, education, and program assignments, or as otherwise required by Federal, state, or local law.
