Facility AUDIT FINDINGS

Summary of Audit Findings

The OAS automatically populates the number and list of Standards exceeded, the number of Standards met, and the number and list of Standards not met.

Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

Number of standards exceeded:	
2	<ul style="list-style-type: none"> • 115.33 - Inmate education • 115.42 - Use of screening information
Number of standards met:	
43	
Number of standards not met:

57. Provide any additional comments regarding selecting or interviewing random inmates/residents/detainees (e.g., any populations you oversampled, barriers to completing interviews, barriers to ensuring representation):	No text provided.
Targeted Inmate/Resident/Detainee Interviews	
58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	16
<p>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".</p>	
60. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:	1
61. Enter the total number of interviews conducted with inmates/residents/detainees with a cognitive or functional disability (including intellectual disability, psychiatric disability, or speech disability) using the "Disabled and Limited English Proficient Inmates" protocol:	0

<p>a. Select why you were unable to conduct at least the minimum required number of targeted inmates/residents/detainees in this category:</p>	<p><input type="checkbox"/> Facility said there were "none here" during the onsite portion of the audit and/or the facility was unable to provide a list of these inmates/residents/detainees.</p> <p><input checked="" type="checkbox"/> The inmates/residents/detainees in this targeted category declined to be interviewed.</p>
<p>62. Enter the total number of interviews conducted with inmates/residents/detainees who are Blind or have low vision (i.e., visually impaired) using the "Disabled and Limited English Proficient Inmates" protocol:</p>	<p>0</p>

<p>b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</p>	<p>The auditor verified through documentation from classification and the PREA compliance manager that there were no individuals in custody who are at high risk of victimization. The auditor also reviewed the records of those individuals held in confinement.</p>
<p>70. Provide any additional comments regarding selecting or interviewing targeted inmates/residents/detainees (e.g., any populations you oversampled, barriers to completing interviews):</p>	<p>No text provided.</p>

Specialized Staff, Volunteers, and Contractor Interviews

Staff in some facilities may be responsible for more than one of the specialized staff duties. Therefore, more than one interview protocol may apply to an interview with a single staff member and that information would satisfy multiple specialized staff interview requirements.

75. Enter the total number of staff in a SPECIALIZED STAFF role who were interviewed (excluding volunteers and contractors):	18
76. Were you able to interview the Agency Head?	<input checked="" type="radio"/> Yes <input type="radio"/> No
77. Were you able to interview the Warden/Facility Director/Superintendent or their designee?	<input checked="" type="radio"/> Yes <input type="radio"/> No
78. Were you able to interview the PREA Coordinator?	<input checked="" type="radio"/> Yes <input type="radio"/> No
79. Were you able to interview the PREA Compliance Manager?	<input checked="" type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NA (NA if the agency is a single facility agency or is otherwise not required to have a PREA Compliance Manager per the Standards)

80. Select which SPECIALIZED STAFF roles were interviewed as part of this audit from the list below: (select all that apply)

- Agency contract administrator
- Intermediate or higher-level facility staff responsible for conducting and documenting unannounced rounds to identify and deter staff sexual abuse and sexual harassment
- Line staff who supervise youthful inmates (if applicable)
- Education and program staff who work with youthful inmates (if applicable)
- Medical staff
- Mental health staff
- Non-medical staff involved in cross-gender strip or visual searches
- Administrative (human resources) staff
- Sexual Assault Forensic Examiner (SAFE) or Sexual Assault Nurse Examiner (SANE) staff
- Investigative staff responsible for conducting administrative investigations
- Investigative staff responsible for conducting criminal investigations
- Staff who perform screening for risk of victimization and abusiveness
- Staff who supervise inmates in segregated housing/residents in isolation
- Staff on the sexual abuse incident review team
- Designated staff member charged with monitoring retaliation
- First responders, both security and non-security staff
- Intake staff

	<input checked="" type="checkbox"/> Other
If "Other," provide additional specialized staff roles interviewed:	Mailroom, Maintenance, Grievance coordinator, Food service.

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

84. Did you have access to all areas of the facility?

Yes

No

Was the site review an active, inquiring process that included the following:

85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?

Yes

No

86. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?

Yes

No

87. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?

Yes

No

88. Informal conversations with staff during the site review (encouraged, not required)?

Yes

No

<p>89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).</p>	<p>No text provided.</p>
--	--------------------------

Documentation Sampling

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

<p>90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?</p>	<p><input checked="" type="radio"/> Yes <input type="radio"/> No</p>
--	--

<p>91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).</p>	<p>No text provided.</p>

SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual abuse	3	0	0	3
Staff-on-inmate sexual abuse	18	0	6	12
Total	21	0	6	15

93. Total number of SEXUAL HARASSMENT allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual harassment allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual harassment	4	0	3	1
Staff-on-inmate sexual harassment	0	0	0	0
Total	4	0	3	1

Sexual Abuse and Sexual Harassment Investigation Outcomes

Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for “convicted.”) Do not double count. Additionally, for question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

94. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

	Ongoing	Referred for Prosecution	Indicted/ Court Case Filed	Convicted/ Adjudicated	Acquitted
Inmate-on-inmate sexual abuse	3	0	0	0	0
Staff-on-inmate sexual abuse	12	0	0	0	0
Total	15	0	0	0	0

95. Administrative SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

	Ongoing	Unfounded	Unsubstantiated	Substantiated
Inmate-on-inmate sexual abuse	0	2	1	0
Staff-on-inmate sexual abuse	12	6	0	0
Total	12	8	1	0

Sexual Harassment Investigation Outcomes

Note: these counts should reflect where the investigation is currently. Do not double count. Additionally, for question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, and detainee sexual harassment investigation files, as applicable to the facility type being audited.

96. Criminal SEXUAL HARASSMENT investigation outcomes during the 12 months preceding the audit:

	Ongoing	Referred for Prosecution	Indicted/ Court Case Filed	Convicted/ Adjudicated	Acquitted
Inmate-on-inmate sexual harassment	1	0	0	0	0
Staff-on-inmate sexual harassment	0	0	0	0	0
Total	1	0	0	0	0

97. Administrative SEXUAL HARASSMENT investigation outcomes during the 12 months preceding the audit:

	Ongoing	Unfounded	Unsubstantiated	Substantiated
Inmate-on-inmate sexual harassment	1	2	1	0
Staff-on-inmate sexual harassment	0	0	0	0
Total	1	2	1	0

	<p>The following evidence was analyzed in making the compliance determination:</p> <ol style="list-style-type: none"> 1. Documents: (<i>Policies, directives, forms, files, records, etc.</i>) <ol style="list-style-type: none"> 1. FDC Procedure 602.053 – <i>Prison Rape: Prevention, Detection, and Response</i> 2. FDC Organizational Chart 2. Interviews: <ol style="list-style-type: none"> 1. PREA coordinator 2. PREA compliance manager <p>Findings (by provision):</p> <p>115.11(a). The Florida Department of Corrections (FDC) and the Homestead Correctional Institution have adopted a comprehensive written policy that mandates zero-tolerance toward all types of sexual abuse and sexual harassment. The agency</p>

provided FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*, which outlines their zero-tolerance sexual abuse policy. The procedure clearly describes the agency’s approach to the prevention, detection, and response to sexual assault incidents in their correctional facilities and establishes immediate reporting guidelines of such incidents. The procedure highlights the proper identification of vulnerable incarcerated individuals and the steps taken to properly protect those individuals while incarcerated in the Homestead CI, as well as the required training and education of staff members, volunteers, contractors, and incarcerated individuals. Also, the procedure provides the definitions for sexual abuse and sexual harassment that are consistent with the prohibited behaviors in the PREA standards. Based upon this analysis, the auditor finds the facility in compliance with this provision.

115.11(b). The agency has designated an agency wide PREA coordinator, Judy Cardinez, who reports directly to the Deputy Director of Institutional Operations. The agency’s organizational chart was provided for review and shows the PREA coordinator’s position as a direct report to the Deputy Director Institutional Operations, listed fourth under the Secretary of Corrections. There is no question as to the authority level of the PREA coordinator at this agency.

The auditor was provided written responses to the PREA audit interview questions for the PREA coordinator. In the written responses, the PREA coordinator confirmed the main function of her position is PREA compliance, PREA contracts, and PREA grant funding. The PREA coordinator also has two Correctional Services Consultants (CSC) assigned to the office that assist with PREA-related services, including PREA audits.

The auditor has worked directly with one CSC for this audit assignment. Based on this interview, the organizational chart, and my contact with the PREA coordinator and the CSC during the several months of this audit, the auditor believes she has both the time and authority necessary. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.11(c). The agency has designated 57 PREA compliance managers to handle the responsibilities at their correctional facilities. At 50 of the facilities, the position is held by the Assistant Warden and the other seven facilities are privately run. As the Assistant Warden, the PREA compliance manager (PCM) should have sufficient authority to coordinate the facility’s efforts to comply with the PREA standards. The PCM provides reporting to the PREA coordinator at the agency level and maintains records and statistics at the institution. At the Homestead Correctional Institution, this position is held by Assistant Warden for Programs Nathan Pollock (AWP). Through an interview with the PCM, the auditor determined that Mr. Pollock is well versed in the PREA standards and clearly understands his role as the PCM. Mr. Pollock discussed the institution’s dedication to sexual safety and the need to ensure all incarcerated individuals are adequately educated regarding PREA upon intake.

During the facility tour, the auditor could see the Assistant Warden’s connection with both the staff and individuals incarcerated there. The PCM indicated that there was sufficient time to complete duties as the PCM, as it was a required part of the Assistant Warden Programs responsibilities. Based on this analysis, the auditor finds the facility in compliance with this provision.

Based on this analysis, the auditor finds the facility in compliance with this provision.</p> <p>115.12(b). The auditor was provided written responses to the PREA audit interview questions for the Agency Contract Administrator. In those written responses, the agency contract administrator indicated that any new contract or contract renewal shall provide for agency contract monitoring to ensure the contractor is complying with the PREA standards. There are a total of 75 contracts for confinement of FDC incarcerated individuals in the state, and they have all submitted proof of compliance with the PREA standards. The seven private agencies that operate correctional facilities on behalf of FDC have all completed their PREA compliance audit and those audit reports are submitted to the FDC PREA coordinator and are posted on the FDC website. The agency contract administrator confirmed that incarcerated individuals will not be housed in any facility or with any entity that fails to provide proof of compliance with the PREA standards. Based on this analysis, the auditor finds the facility in compliance with this provision.</p>

Auditor Discussion

The following evidence was analyzed in making the compliance determination:

1. Documents: (*Policies, directives, forms, files, records, etc.*)
 1. FDC Procedure 602.053 - *Prison Rape: Prevention, Detection, and Response*
 2. *FDC Homestead Correctional Institution Staffing Plan*

 4. Random Staff
 5. Specialized Staff
3. Site Review Observations:
 1. Control rooms (electronic monitoring)
 2. Program areas
 3. Housing units
 4. Kitchen
 5. Health services

Findings (by provision):

115.13(a). In the PAQ, the agency provided FDC Procedure 602.053 - *Prison Rape: Prevention, Detection, and Response*. In the *Prevention/Detection* Section, the procedure states that the Office of Institutions will develop a particularized staffing plan for each institution that provides adequate staffing levels and video monitoring to protect incarcerated individuals against sexual abuse sexual battery, staff sexual misconduct, and sexual harassment. The agency also provided the auditor with a copy of the *FDC Homestead Correctional Institution Staffing Plan*. The document includes the staffing level guidelines for Homestead Correctional Institution. The plan also includes the breakdown of video monitoring technology for each location. The plan includes a review of the supervision of the institution.

The staffing plan mandated in this provision must take into account 11 considerations:

1. Provision 115.13(a)(1) - Generally accepted detention and correctional practices - The Department created posts for Homestead CI within the plan in line with national correctional practice and was developed based on direction from the National Institute of Corrections (NIC) and US Department of Justice's "Guidelines for the development of a security program".
2. Provision 115.13(a)(2) - Any judicial findings of inadequacy - Homestead CI

has not had any judicial findings of inadequacy.

3. Provision 115.13(a)(3) – Any findings of inadequacy from Federal investigative agencies – Homestead CI has not had any findings of inadequacy from any Federal investigative agency.

4. Provision 115.13(a)(4) – Any findings of inadequacy from internal or external oversight bodies – The Department has undergone an intense effort to analyze current staffing patterns, including two analyses in 2015 and a contracted comprehensive staffing analysis in 2016. Although the reviews found the deployment of staffing to fulfill the needs of the staffing plan to be inadequate, the staffing plans were acceptable. Due to the limited number of staff at Homestead CI, Level II and Level III posts are left vacant to fill all critical Level I posts. Level I posts are the minimum staffing required for the daily operation of a shift and require limitation of certain activities on the compound. The State Legislative Budget Commission has approved pay increases and bonuses for staff beginning in 2021, that should assist with the recruitment and retention of staff members. Homestead CI had external reviews and audits in 2022 as well as an internal PREA review.

5. Provision 115.13(a)(5) – All components of the facility’s physical plant (including “blind-spots” or areas where staff or incarcerated individuals may be isolated) – Homestead CI has evaluated the compound and has not identified any concerns with the physical plant since its opening. Administrative staff, however, have identified areas of concern where viewing of inmates could be improved for overall safety. Areas including the chapel and dining hall, as well as the recreation area and inside grounds are not covered by cameras, so staff will conduct more frequent security checks in these areas.

6. Provision 115.13(a)(6) – The composition of the incarcerated individual population – The Homestead CI staffing plan is based on an incarcerated individual population of female incarcerated individuals. The staffing plan consists of 157 security positions of which thirteen (13) are gender specific, due to the female population. The institution holds a population with custody levels ranging from close, medium, minimum, and community.

7. Provision 115.13(a)(7) – The number and placement of supervisory staff – The plan considers the placement of supervisors for the proper supervision of staff and safety of the incarcerated individuals to ensure coverage for the security inspections and required facility rounds. These tasks help to ensure sexual safety in the facility.

8. Provision 115.13(a)(8) – Institution programs occurring on a particular shift – The Homestead CI plan ensures adequate staff assigned to daily programmatic activities, and these daily activities was one of the factors considered during the creation of the plan. The institution holds ten (10) positions to assist with daily programmatic activities. Available programs include: the Ladies Empowerment Action program, literacy class, adult basic education, general equivalency diploma (GED), applied information technology, cosmetology certification, substance abuse, new horizon service dogs, and a textile program. The institution also houses two full-service contractor employer programs, Pride Optical and Televerde, where the

incarcerated individuals can seek paid employment, certification for advanced skills, and job training for future employment upon release. In addition to these programs, staff are assigned to oversee recreation activities, education, and vocational programs.

9. Provision 115.13(a)(9) - Any applicable State or local laws, regulations, or standards - There are no State or local laws, regulations, or standards that relate to the Department, specifically Homestead CI staffing levels.

10. Provision 115.13(a)(10) - The prevalence of substantiated and unsubstantiated incidents of sexual abuse - Based on the number of substantiated and unsubstantiated sexual abuse allegations at Homestead CI in 2022, coupled with the sexual abuse incident reviews of those allegations, the agency determined that modifications to the staffing plan were unwarranted.

11. Provision 115.13(a)(11) - Any other relevant factors - The plan considered all other incidents and the institution's physical plant and found no need to make modifications to the current staffing plan.

The overall staffing of the facility is consistent with accepted practices and standards, and the auditor saw nothing in the plan or in the facility that would be inconsistent with that finding.

During the site review, the auditor found no areas of concern or blind spots in the facility. The auditor also noted adequate staffing throughout the compound, as well as supervisory staff. The auditor reviewed all areas, including the kitchen, laundry, program areas, medical and mental health, and all housing units. There are clearly visible cameras throughout the facility and the auditor could see where the facility had identified potential areas of concern, as some mirrors had been installed. This would support the assertion in the staffing plan that the facility has done an extensive review. The auditor visited the control rooms where staff actively monitor video within the facility. There appeared to be extensive coverage in all areas of the facility. The auditor is also aware of the difficulties many FDC institutions currently have in maintaining adequate levels of staff members. However, the auditor noted staff deployed throughout the institution in levels that more than covered each housing unit as well as the control rooms.

The auditor talked with several supervisors throughout the facility and witnessed their interactions with staff. It was apparent that there is ample supervisory coverage to ensure staff and incarcerated individual safety.

The auditor visited the education and programs buildings and the library and law library. Incarcerated individuals were able to utilize the library services and easily attend programs without taking away security and safety from the rest of the compound. The auditor also visited the three major programs, the cosmetology program, Televerde, and Pride Optical. These tremendous programs provide great opportunities for the incarcerated individuals over and above what is normally seen at the state prison level. This type of program adds to the overall sexual safety within the incarcerated population because of the high level of learning and potential for job

opportunities following the individual's release from custody. This type of program tends to drive the individuals to avoid trouble and stay away from actions, such as sexual misconduct, that would cause them to lose their program opportunity. The staffing plan provides for additional programs staff leading to this participation.

The auditor also visited health services on the compound. Services include an infirmary, urgent care and triage, medication, laboratory services, and single confinement cells for those individuals that require separation for healthcare or for protection from self-harm. Throughout these areas, the auditor noted coverage with cameras and mirrors, secured office doors, and large, wide windows on all the office doors for clear viewing when incarcerated individuals are being treated inside.

The auditor interviewed the Warden during the onsite phase of the audit. The Warden talked about the staffing plan and indicated the staffing plan is written at the agency level but is reviewed annually by staff at the institution. The Warden explained the plan is based on several factors and nationally accepted guidelines for staffing coverage. The Warden believes that it allows for more than adequate staffing coverage at the institution. Each of the three shifts has adequate staff to provide a safe environment leading to the prevention, detection, and reduction of sexual abuse of the incarcerated individual population. The video monitoring system is evaluated at least once per year to determine if the agency should make adjustments to better identify safety concerns. The Warden confirmed the plan covers each of the 11 points required under this standard. To confirm compliance, the shift major and captains review daily and weekly staffing reports and address any concerns immediately and forward those reports to the Warden's office for additional review and approval. The auditor also interviewed the PREA compliance manager, who confirmed the staffing plan considers each of the required points listed in this standard. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.13(b). The staffing plan reports many deviations from the staffing plan in 2022. These deviations are due to staff on sick leave, staff on FMLA, staff on approved annual leave, training, and staff covering outside hospital posts. Each of the deviations are properly documented in the daily shift reports and reported directly to the Warden. The auditor interviewed the Warden, who confirmed the documented deviations through the daily shift reports. The auditor was provided with copies of the shift reports and noted the deviations below the required minimum staffing. The auditor could see how the institution corrected the deviation by requiring staff to work additional overtime hours to cover shortages on each shift. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.13(c). The auditor was provided with a copy of the *Homestead Correctional Institution PREA Annual Staffing Review* in the PAQ. The annual review was completed in May 2023. The review indicated that no changes to the staffing plan were warranted based on the institution's incarcerated individual population, current staffing levels, current video monitoring technology, physical plant, and institution administration requests. The annual review was completed by the agency PREA coordinator's office and signed by the agency PREA coordinator.

The auditor interviewed the agency PREA coordinator, who confirmed the staffing plan is reviewed at a minimum of once per year. The annual review is then shared with the institution. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.13(d). The auditor was provided FDC Procedure 602.053 - *Prison Rape: Prevention, Detection, and Response* in the PAQ. This policy states, "The Chief of Security shall ensure that unannounced supervisory rounds and opposite gender housing announcements are conducted and documented in accordance with post orders." The procedure also states that staff members are prohibited from taking actions to inhibit the prevention practices in place, which includes alerting coworkers to unannounced rounds by supervisors.

During interviews with 16 random incarcerated individuals, each incarcerated individual stated that supervisors enter the housing units several times a day. When asked, incarcerated individuals told the auditor that supervisors come in the units many times throughout the day and night. During interviews with 12 random staff members, staff stated that supervisors perform rounds daily and at different times. The auditor also interviewed supervisors during the onsite audit and confirmed that they are expected to enter each housing unit at least once per day to make rounds. Those rounds are required to be documented in the logs and are to be performed at random times so as not to be predictable. Also, during the site review, the auditor met supervisors in the housing units while they were performing their unannounced rounds.

Several copies of event logs were supplied in the PAQ, which showed various upper-level supervisors logging in PREA rounds throughout the facility. Rounds were logged as "**Unannounced PREA Round Conducted**" at all times of the day and night. The logs were from different days of the week throughout the month. During the onsite audit, the auditor was provided with video of supervisors making rounds in various housing units on both compounds. The video clearly showed the supervisor entering the unit at different times, making full round of the unit, and reviewing all areas of the unit. Based on this analysis, the auditor finds the facility in compliance with this provision.

Findings (by provision):

115.14(a). The auditor reviewed FDC Procedure 601.211 – *Designation of Youthful Offenders, Young Adult Offenders, and Youthful Offender Facilities*, which was provided in the PAQ. This procedure outlines the requirements to house incarcerated individuals within FDC that are under age 18. The Department has designated two institutions for housing of male youthful offenders that have been defined as those incarcerated individuals 17 years of age and under. As outlined in the procedure, these incarcerated individuals are to be separated from anyone 18 years of age and older. Also, by Florida state law, and facility policy, staff are required to complete security rounds every 10 minutes, without exception.

Homestead Correctional Institution does not house youthful, incarcerated individuals. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.14(b). Homestead Correctional Institution does not house youthful, incarcerated individuals. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.14(c). Homestead Correctional Institution does not house youthful, incarcerated individuals. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.15 Limits to cross-gender viewing and searches

Auditor Discussion

The following evidence was analyzed in making the compliance determination:

1. Documents: (*Policies, directives, forms, files, records, etc.*)
 1. FDC Procedure 602.018 – *Contraband and Searches of Incarcerated Inmates*
 2. FDC Procedure 602.036 – *Gender Specific Security Positions, Shifts, Posts, and Assignments*

 2. Targeted incarcerated Individuals
 3. Random incarcerated Individuals
 3. Site Review Observations:
 1. Control rooms (electronic monitoring)
 2. Strip search room
 3. Bathrooms and shower areas
 4. Housing units
 5. Medical services

Findings (by provision):

115.15(a). In the PAQ, the facility provided FDC Procedure 602.018 – *Contraband and Searches of Inmates*. This document specifically describes the policy related to when and how searches are to be performed on incarcerated individuals. This procedure requires that unclothed body searches of incarcerated individuals be conducted by staff of the same sex, except in an emergency (*p. 5*). The policy requires supervisory approval for body cavity searches, which are to be performed by medical staff only. The PAQ shows that no body cavity searches were performed in the previous 12 months.

During the site review, the auditor viewed the strip search area in the Visitor’s Park (VP). The strip searches are performed in a small, separate area near the building’s back door in the VP. This same area is utilized to perform strip searches of newly accepted individuals when they are processed for intake to the institution. The area is behind a door to prevent viewing from other incarcerated individuals and staff members and there are no cameras in the area that could view the incarcerated individual in a state of undress during the search. During the site review, the auditor walked through the intake process and observed the strip search process as there were no new intake individuals from another institution during the audit. The female officer explained that the searches are performed one search at a time inside the private room. The female officer told the auditor the searches would always be performed by a female corrections officer based on the agency policy. The auditor had informal discussions with incarcerated individuals during the site review and was told that strip searches of incarcerated individuals are always performed by female officers. The auditor interviewed two officers that perform searches and they both indicated that only female officers are permitted to perform strip searches of the female incarcerated individuals at Homestead CI. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.15(b). The agency provided FDC Procedure 602.036 – *Gender Specific Security Positions, Shifts, Posts, and Assignments* in the PAQ. This procedure states, “Clothed searches of female inmates by male staff will only be conducted during an emergency

situation as determined by the Shift Supervisor. The only exception to this section is an instance when time and circumstances do not permit the arrival of female staff or consultation with the Shift Supervisor prior to conducting the search due to an imminent threat of physical violence and a search is needed to secure the inmate to prevent injury to staff or inmates.” The institution indicated in the PAQ that there were no female incarcerated individuals who were pat-down searched by a male staff during the 12 months prior to the onsite audit.

During the onsite audit, the auditor interviewed 12 random staff members. Each staff member interviewed indicated that male staff members were not permitted to perform a pat-down search of a female incarcerated individual. The auditor was told that the policy allows for male staff members to perform the search only under exigent circumstances. The auditor interviewed 16 random incarcerated individuals (all female) during the audit as well. All 16 told the auditor that they are never searched by male staff members. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.15(c). The agency provided FDC Procedure 602.036 – *Gender Specific Security Positions, Shifts, Posts, and Assignments* in the PAQ. This procedure states that all strip searches of incarcerated individuals conducted by staff of the opposite gender require the staff conducting the search to submit an incident report explaining the justification for the search exception. In the PAQ, the agency indicated that there were zero such searches conducted over the previous 12 months prior to the audit. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.15(d). The agency provided FDC Procedure 602.036 – *Gender Specific Security Positions, Shifts, Posts, and Assignments* in the PAQ. This procedure is intended to set internal guidelines for gender specific security positions, shifts, posts, and assignments. This includes specific posts in housing units and on shifts where incarcerated individuals are utilizing showers and toilets where there is a likelihood for staff to view incarcerated individuals in a state of undress where breasts, genitalia, and buttocks would be visible to staff members of the opposite gender. This procedure states that in housing units where this would be a concern, the incarcerated individuals must not be supervised by officers of the opposite gender. The procedure also requires that when staff members enter housing units of incarcerated individuals of the opposite gender, they make an announcement prior to entering. The agency provided copies of housing unit logs in the PAQ. The log includes a preprinted remark, “**Announcement made to all incarcerated individuals the presence of male staff in the dormitory.**” The remark requires a time and staff initials.

During the site review, the auditor toured the full “campus” style institution and visited all the housing units and viewed the restroom and shower areas. The institution has eight housing dormitories. Six of the eight dormitories are considered room housing units. Each unit holds 50 double-bunked cells, or rooms, on two tiers. They are centered around a central dayroom. Each side has a central restroom area holding four toilets and four showers on each tier. The showers are equipped with two shower curtains. The first provides modesty for the incarcerated individuals to

dress and undress and the second covers the shower for privacy. The auditor toured each unit. Each housing unit has a large, open dayroom that is well lit. The incarcerated individual telephones are on the wall near the front of the unit and signage regarding PREA was visible in each of the housing units. The PREA signs include information about the right to be free from sexual abuse, the ways to report incidents of sexual abuse, and the counseling services that are available. The auditor saw the required audit notice in each housing unit, as well as in the entry way of each of the dormitories. The auditor entered the officer's workstation and reviewed the camera monitor that is available for viewing in each of the housing units. The officer does not have the ability to replay video or access additional cameras other than the cameras assigned for that specific unit. None of the camera views allow for the viewing of toilets or showers and is not a concern for cross-gender viewing of naked incarcerated individuals. All storage closets and staff restrooms were closed and locked. The remaining two housing dormitories are open dormitory style buildings, each split into two housing units. Each dormitory has a housing unit on each side with a center raised control room. As the auditor saw in the other dormitories, the control room operator has no access to replay video and cannot view incarcerated individuals in the shower or restrooms. The auditor toured both dormitories and could easily see PREA signage near the incarcerated individual telephones. The required audit notice was posted on the bulletin board in each unit. The restroom and shower areas are separated off to one side of the unit. There is no camera coverage in this area. Each of the toilets is separated by a half-wall. The showers are separated from the rest of the restroom area by a half-wall and covered with a shower curtain. One wing in the Gulf dormitory is utilized as the confinement unit. This wing holds 40 cells for individuals confined for either administrative confinement or disciplinary confinement. These cells are double-bunked and behind secure closed-doors. There are three showers available on each of the two tiers and the showers are covered with a secure gate that has a metal cover to provide privacy. The incarcerated individuals confirmed supervisor rounds several times throughout the day and night and they also confirmed that male staff announced their presence prior to entering the housing unit.

Also, during the site review, the auditor routinely witnessed male staff members make an announcement prior to entering housing units so incarcerated individuals can cover up and prevent cross-gender viewing, although incidental viewing during security rounds is acceptable. Incarcerated individual rules forbid the female incarcerated individuals from undressing in the open dorm sleeping area. Each time we attempted to enter a dormitory, a corrections officer or supervisor clearly made a loud announcement of "male on the dorm" as the auditor is male and had to wait prior to entering all areas. We were then asked to wait a moment before we entered, allowing incarcerated individuals the opportunity to cover up if it was necessary.

During random interviews with 16 incarcerated individuals, they all stated that officers routinely make an announcement before entry to the unit. All 16 of the incarcerated individuals interviewed confirmed they felt comfortable to shower and use the restroom without staff members of the opposite sex viewing them. During random interviews with 12 officers, they confirmed that cross-gender announcements

are done every time a male officer enters a housing unit. Officers stated clearly that they cannot see incarcerated individuals in the showers and restrooms and will only see incarcerated individuals naked during routine cell checks and security rounds. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.15(e). In the PAQ, the agency provided FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*. On page 6, under the *Identification* section, the procedure states, “Staff will not search or physically examine a transgender and/or intersex incarcerated individual for the sole purpose of determining the incarcerated individual’s genital status.” The procedure goes on to require that staff attempt to determine the incarcerated individual’s status through conversation with the incarcerated individual or a broader medical examination, if necessary.

During the onsite phase of the audit, the auditor interviewed five incarcerated individuals who identify as transgender male. Each of the five incarcerated individuals stated that they had not been searched by the facility to determine the incarcerated individual’s genital status. The auditor also interviewed 12 random officers and was told that such searches of transgender incarcerated individuals was a violation of policy. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.15(f). The facility provided the auditor with a copy of the search procedures training curriculum that is provided for staff on an annual basis. The training identifies the need for staff members to perform pat searches using the bladed technique between and under the breasts to search for contraband. The training also requires the need to do such searches in a professional and respectful manner, in the least intrusive manner possible. The auditor was provided with training records for the last two years, which document the completion of training for all staff members on the search module.

During the onsite phase of the audit, the auditor interviewed 12 random officers. Each of the 12 officers confirmed attending annual in-service training in 2023. The required training for cross-gender searches was included in the training. All 12 officers stated that the training included how to perform the searches of transgender incarcerated individuals in a professional and respectful manner. Based on this analysis, the auditor finds the facility in compliance with this provision.

 2. Targeted incarcerated individuals
 3. Random incarcerated individuals
3. Site Review Observations:
 1. Postings in housing units
 2. Medical housing
 3. Incarcerated individual educational materials

Findings (by provision):

115.16(a). In the PAQ, the auditor was provided FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*. The procedure states that incarcerated individuals with recognized disabilities and who are Limited English Proficiency (LEP) will be advised of the Department’s zero tolerance policy on sexual abuse utilizing resources that include closed captioning, large print materials, reading of materials, Department translators, and Language Line translators. Incarcerated individuals who receive accommodations to receive intake PREA education will have that accommodation noted on Form DC6-134C - *FDC Acknowledgement of Receipt of Orientation*. The auditor was provided a copy of one such form showing an incarcerated individual with a visual impairment sitting at the front to watch the intake video. Accommodations include utilization of closed captioning, placement of the incarcerated individual close to the video screen, large print brochures, and staff translators.

During the onsite phase of the audit, the auditor interviewed one incarcerated individual with a physical disability and one incarcerated individual who is partially deaf. Both incarcerated individuals confirmed they had received the PREA education and had no problems with seeing and hearing the video at receiving. Both could explain the zero-tolerance policy, knew how to properly report an allegation of sexual abuse, and knew what behavior was considered sexual abuse. The partially deaf incarcerated individual sat in the front to be able to better see the video to make it easier to read the captions. Facility staff directed her to sit in the front to ensure she could see and hear the video with no problems. She understood the sexual abuse prohibited acts and knew how to report an incident of sexual abuse and did not require the assistance of an interpreter. She also received PREA education in writing via a sexual abuse pamphlet. The incarcerated individual with a disability, a severe limp that requires the use of a cane, was able to receive the PREA education without a problem and was able to access and reach telephones and access all other services at the institution.

The auditor was provided written responses to the PREA audit interview questions for the Agency Head. In those responses, the agency head stated the agency provides various accommodations for incarcerated individuals to be able to access PREA education, regardless of the disability or language spoken. During the site review, the auditor viewed the PREA signage, and it appeared to be posted at a level that was easily viewed by all incarcerated individuals, even those that were wheelchair-bound. Grievances are available to all incarcerated individuals and the FDC procedure requires accommodation for those that need assistance to file a grievance. The telephones are also in a place easily accessible for all incarcerated individuals, so all incarcerated individuals would be able to call the PREA hotline. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.16(b). In the PAQ, the auditor was provided FDC Procedure 602.053 - *Prison Rape: Prevention, Detection, and Response*. The procedure states that incarcerated individuals with recognized disabilities and who are Limited English Proficiency (LEP) will be advised of the Department's zero tolerance policy on sexual abuse utilizing resources that include closed captioning, large print materials, reading of materials, Department translators, and Language Line translators. Accommodation includes staff translators and translator services. Homestead CI employs a variety of staff that speak other languages fluently and are on the approved translators list for the state. The auditor also viewed the *FDC Inmate Orientation Handbook* and incarcerated individual brochure NI1-120 - *PREA Education*, which were both printed in English and Spanish.

The auditor interviewed two incarcerated individuals who spoke Spanish during the incarcerated individual interviews. Both incarcerated individuals were not able to speak English and a corrections officer was utilized to translate for the incarcerated individuals. The incarcerated individuals understood the PREA information, remembered watching the video in receiving, and know how to report sexual abuse if it were needed. The video was presented to them in Spanish. The auditor viewed PREA signage in the housing units during the site review and all signs were available in both English and Spanish. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.16(c). In the PAQ, the auditor was provided FDC Procedure 602.053 - *Prison Rape: Prevention, Detection, and Response*. The procedure states, "Inmates shall not be used as interpreters or readers except in exigent circumstances."

During the onsite phase of the audit, the auditor spoke with 12 random officers and 16 random incarcerated individuals. All staff and incarcerated individuals stated that the facility does not utilize incarcerated individuals to interpret for other incarcerated individuals. Staff members stated clearly that using an incarcerated individual to interpret could be dangerous, as there is no way to ensure that the translation from their language to English is accurate. Staff confirmed that there is a list of approved translators if someone requires a translator. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.17 Hiring and promotion decisions

Auditor Overall Determination: Meets Standard

Auditor Discussion

The following evidence was analyzed in making the compliance determination:

- 1. Documents: (*Policies, directives, forms, files, records, etc.*)
 - 1. FDC Procedure 208.049 - *Background Investigation and Appointment of Certified Officers*
 - 2. FDC Procedure 602.016 - *Entering and Exiting Department of Corrections Institutions*
 - 3. Form NI1-088 - *Moral Character and Background Guidelines*
 - 4. *Florida State Statute 435.03*
 - 5. *Florida State Statute 435.04*
 - 6. Employment records
- 2. Interviews:
 - 1. Specialized staff

Findings (by provision):

115.17(a). In the PAQ, the auditor was provided FDC Procedure 208.049 - *Background Investigation and Appointment of Certified Officers*. This procedure sets forth guidelines for conducting background investigations and hiring certified officers for FDC. The procedure requires a full review of the applicant’s prior corrections history, if applicable, and state and national criminal history checks. The procedure provides guidelines for the review of the criminal history and what prior criminal offenses will automatically eliminate the applicant from hire. The offenses in this standard are all included in this list of automatic eliminations. The procedure requires a full review of the past criminal justice employment history. This would allow for the review of an applicant’s past engagement in sexual abuse in a correctional facility. The institution provided FDC Form NI1-088 - *Moral Character and Background Guidelines* in the PAQ. The form lists specific moral character disqualifiers that would prevent a potential employee from being hired to work at FDC. Sexual misconduct with an inmate is included in these disqualifiers. This same review is required for current employees that are seeking promotional opportunities.

All potential volunteers and contractors that will have incarcerated individual contact inside the secure facility must also have a completed background check performed prior to admission to the facility. This requires that the applicant affirmatively state that they have not been charged with a sexual abuse offense or be the subject of a sexual harassment allegation.

The auditor reviewed the records of ten randomly selected staff members. The agency provided clear records showing the appropriate background checks performed with no indication of prior sexual offenses listed for each of the ten records reviewed.

Based on this analysis, the auditor finds the facility in compliance with this provision.

115.17(b). FDC Procedure 208.049 – *Background Investigation and Appointment of Certified Officers* includes an extensive review of the applicant’s prior work history. This review asks questions regarding the applicant’s sexual harassment history. This review must be completed before the applicant can be approved for employment by the Department.

During the onsite phase of the audit, the auditor interviewed a staff member from human resources. The auditor was told that all applicants are asked specific questions about sexual harassment. The applicant is required to affirmatively state that he or she has not been the subject of a sexual harassment investigation. This is also confirmed through the background check of prior employers. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.17(c). The auditor was provided FDC Procedure 208.049 – *Background Investigation and Appointment of Certified Officers* in the PAQ. This procedure sets forth guidelines for conducting background investigations and hiring certified officers for FDC. The procedure requires a full review of the applicant’s prior corrections history, if applicable, and state and national criminal history checks. The procedure provides guidelines for the review of the criminal history and what prior criminal offenses will automatically eliminate the applicant from hire. The auditor was also provided *Florida State Statutes 435.03 and 435.04*, in the PAQ, which mandate the Level I and Level II background check clearances for individuals prior to employment at FDC institutions. Homestead CI indicated that there were 57 new staff members hired over the prior 12 months who had completed background checks before approval for hire.

The auditor reviewed the records of ten randomly selected staff members. The agency provided clear records showing the appropriate background checks performed with no indication of prior sexual offenses listed for each of the ten records reviewed.

During the onsite phase of the audit, the auditor interviewed a staff member from human resources. The auditor was told that all applicants must pass the full criminal history review before being considered for employment. Certified corrections officers must pass a level I background check and non-certified staff members must pass a level II background check, per Florida State Statutes. Also, a full check of prior employers is completed for everyone before the applicant’s file can receive final approval. These same reviews are completed for contractors but are typically performed by the contractor and are included in the contract. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.17(d). In the PAQ, the agency provided FDC Procedure 602.016 – *Entering and Exiting Department of Corrections Institutions*. In the Contractors/Vendors section, the procedure mandates background checks for all contractors prior to entrance into a correctional institution. Also, as discussed in provision 115.17(a) above, the agency completes a criminal background check for all individuals who will be employed through a department contractor. These reviews are typically completed by the contractor. This is included in the contractor’s FDC contract.

During the onsite phase of the audit, the auditor interviewed a staff member from human resources. The auditor was told that all individuals who will work with a department contractor must pass the full criminal history review before being approved for entrance to the institution. These reviews are typically performed by the contractor and are included in the FDC contract. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.17(e). In the PAQ, the agency provided *Florida Statute 435.03 – Level 1 screening standards*, and *Florida Statute 435.04 – Level 2 screening standards*.

Under State Law, certified corrections officers must undergo Level 2 screening standards prior to employment. These standards include background investigations, fingerprinting for statewide criminal history records checks, and national criminal history checks. FDC fingerprints all certified and non-certified employees and enters their fingerprints into the Florida Department of Law Enforcement (FDLE) FALCON system.

During the onsite phase of the audit, the auditor interviewed a human resources staff member. She confirmed that fingerprinting of staff is a part of their normal procedure. The Department and Homestead CI is enrolled in the Florida Department of Law Enforcement (FDLE) FALCON system. FALCON is an integrated state-of-the-art system for identifying criminals and reporting data. For law enforcement agencies and correctional agencies, it is utilized through a livescan program, where employee fingerprints are scanned into the FALCON system. Once entered in the enrolled agency file, the FDLE will automatically identify and alert at any time if that individual's fingerprints are received through a new arrest anywhere in the United States. The alert is sent from the FDLE to the agency's contact, thus providing an automatic system to capture employee arrests. The use of this FALCON system satisfies the requirement for the five-year background check.

For volunteers and contractors, the agency requires that background checks be performed annually for all volunteers and contractors to remain active on the approved list. This is a requirement for all FDC contracts and for all volunteers. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.17(f). The auditor was provided FDC Procedure 208.049 – *Background Investigation and Appointment of Certified Officers* in the PAQ. This procedure sets forth guidelines for conducting background investigations and hiring certified officers for FDC. The procedure requires that applicants disclose any prior sexual misconduct.

During the auditor's interview with the human resources staff member, it was confirmed the agency follows this policy. She explained that questions regarding an individual's prior employment, sexual abuse and sexual harassment allegations, and prior criminal offenses are asked during the oral interview process. She also confirmed that all employees are required to report any arrests or allegations of sexual harassment. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.17(g). The agency's employment application was provided to the auditor during

	<p>the interview. The application clearly provides the applicant with the statement that all statements on the application are true, and any misstatement, misrepresentation or falsification of facts shall cause forfeiture of all rights to employment with the agency.</p> <p>During the interview with the human resources staff member, the auditor confirmed that the agency will terminate any employee for false information provided during the application process or omissions of fact of any information, including sexual abuse and sexual harassment. Based on this analysis, the auditor finds the facility in compliance with this provision.</p> <p>115.17(h). During the onsite phase of the audit, the auditor interviewed a staff member from human resources. She confirmed that the agency would, in fact, provide potential new employers with information regarding a past employee’s sexual abuse and sexual harassment allegations and/or investigations. She stated that they would not want an individual who had already participated in such activities to have access to incarcerated individuals in another facility. She stated that there is no law prohibiting this in Florida. Based on this analysis, the auditor finds the facility in compliance with this provision.</p>

questions for the Agency Head. The agency head stated that all facility modifications are based on safety for both incarcerated individuals and staff. They must be submitted for approval by Regional Directors. Modifications must take into account proper line of sight, ensuring that new construction does not create blind spots, and ensuring new construction will not inhibit an incarcerated individual's ability to benefit from all aspects of PREA. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.18(b). The agency stated that Homestead CI has updated the institution's video monitoring system since the last PREA audit.

During the onsite phase of the audit, the auditor interviewed the Warden, who stated both video and audio surveillance are regularly reviewed to ensure compliance with requirements for security checks and proper implementation of all security and safety procedures. They determined that locations within the institution required additional video monitoring and additional cameras were installed throughout the institution.

There are now a total of 130 cameras deployed in the housing units and 79 cameras deployed in common areas for a total of 209 operational cameras at Homestead CI.

When making determinations for the need to install additional video monitoring, they take into account the sexual safety of the incarcerated individual population and the overall safety of the population and the security staff. The auditor was provided written responses the PREA audit interview questions for the Agency Head. The agency head stated that resources have been focused on adding and upgrading current video monitoring technology to enhance overall sexual safety. The Department is continually working with the State legislature to obtain funding to enhance current technology with a goal of having all areas of every facility under surveillance. Video is utilized to identify suspicious activity by incarcerated individuals and staff members, and it can assist the Office of Inspector General with investigations and prosecutions. The Department has begun using audio monitoring as well as another tool to increase the Department's ability to respond promptly to situations such as assaults or sexual victimization. Based on this analysis, the auditor finds the facility in compliance with this provision.

Findings (by provision):

115.21(a). In the PAQ, the agency provided FDC Procedure 108.015 – *Sexual Battery, Sexual Harassment, and Sexual Misconduct Investigations*. The procedure establishes guidelines for the investigation of sexual abuse and sexual misconduct within the Department of Corrections. The procedure states, “The Office of the Inspector General shall, except pursuant to the terms of any valid Memorandum of Understanding (MOU) or protocol with any other law enforcement agency, be the primary investigative unit of all sexual misconduct allegations occurring on Department property” (p. 5). The auditor was also provided the *FDLE Adult/Adolescent Forensic Sexual Assault Examination* in the PAQ. This document identifies the standard evidence to be collected for all reports of sexual abuse, sexual assault, and sexual misconduct. This is the evidence collection document utilized by the Office of the Inspector General (OIG) for all investigations at FDC.

During the onsite phase of the audit, the auditor interviewed an investigator from the OIG. He confirmed that the OIG investigates all allegations of sexual abuse made by incarcerated individuals at FDC facilities, including Homestead CI. The investigator stated they utilize a standard evidence collection format provided by the FDLE that follows the national protocol. During random staff interviews, the auditor interviewed 12 officers. Each of the 12 officers interviewed knew that the OIG investigated all allegations of sexual abuse and sexual assault. All 12 officers also knew that evidence was collected by the OIG and officers were responsible to protect the crime scene to preserve the evidence until it could be collected. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.21(b). The auditor was provided the *FDLE Adult/Adolescent Forensic Sexual Assault Examination* in the PAQ. This document identifies the standard evidence to be collected for all reports of sexual abuse, sexual assault, and sexual misconduct. This is the evidence collection document utilized by the Office of the Inspector General (OIG) for all investigations at FDC. The protocol includes collection and preservation of evidence that is appropriate for youth.

The auditor reviewed the evidence protocol and compared it with the *Department of Justice's (DOJ) Office on Violence Against Women* publication, "A National Protocol for Sexual Assault Medical Forensic Examinations, Adults/Adolescents." The FDLE protocol appears to be based upon the DOJ protocol. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.21(c). In the PAQ, the agency provided FDC Procedure 108.015 – *Sexual Battery, Sexual Harassment, and Sexual Misconduct Investigations*. The procedure establishes guidelines for the investigation of sexual abuse and sexual misconduct within the Department of Corrections. The procedure requires the OIG to ensure the incarcerated individual victim obtains medical treatment, a forensic examination, and advocacy. The auditor was also provided Agency Contract ATC-23-007 – *Prison Rape Elimination Act (PREA) Forensic Medical Exams* in the PAQ. This contract provides for Panhandle Forensic Nurse Specialist, Inc., to provide forensic examinations for each of the FDC institutions, including Homestead CI. Commonly known as the SART, they provide forensic medical examinations, performed by sexual assault nurse examiners (SANE) at the FDC institution where the incident occurred. Per the agency contract, facility staff contact the SART immediately and a SANE will respond to the institution to perform the examination in the institution's medical department. Per language in FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*, such examinations are provided without financial cost to the victim. The agency noted no such examinations at Homestead CI over the previous 12 months.

During the onsite phase of the audit, the auditor conducted a telephone interview with a nurse director at the SART. The director verified that their contract with FDC requires them to respond immediately to an institution when contacted to perform a forensic medical examination. A SANE nurse will respond and perform the examination. When asked, the director stated they will respond to all calls for response, so there is no need for an alternative plan for coverage for a SANE. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.21(d). In the PAQ, the facility provided the *Contract between the Florida Department of Corrections and Roxcy Bolton Rape Treatment Center*. This contract provides for the Roxcy Bolton Rape Treatment Center to provide victim advocacy for Homestead Correctional Institution. This advocacy includes the advocacy accompaniment during sexual assault forensic exams and investigatory interviews within eight hours of notification by the Department. The auditor was also provided documentation of completion of a Victim Services Practitioner course through the Florida Crime Prevention Training Institute for the agency PREA coordinator. This practitioner course qualifies the PREA coordinator as a community victim advocate, which allows her to provide advocacy services for incarcerated individual victims when other advocacy services are unavailable.

During the onsite phase of the audit, the auditor interviewed the PREA compliance manager. He stated that Homestead CI has access to victim advocates through the Roxcy Bolton Rape Treatment Center. Incarcerated individuals are informed of the available advocates through signage in the facility and through the incarcerated individual handbook. The auditor also interviewed four incarcerated individuals who

had reported sexual abuse. All four incarcerated individuals told the auditor they knew that victim advocates were available to them. They all declined to speak to an advocate. The staff at the facility told them about the advocate and the OIG investigator told them about the Roxcy Bolton Rape Treatment Center. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.21(e). In the PAQ, the facility provided the *Contract between the Florida Department of Corrections and Roxcy Bolton Rape Treatment Center*. This contract provides for the Roxcy Bolton Rape Treatment Center to provide victim advocacy for Homestead Correctional Institution. This advocacy includes the advocacy accompaniment during sexual assault forensic exams and investigatory interviews within eight hours of notification by the Department.

During the onsite phase of the audit, the auditor interviewed the PREA compliance manager. He stated that Homestead CI has access to victim advocates through the Roxcy Bolton Rape Treatment Center. Incarcerated individuals are informed of the available advocates through signage in the facility and through the incarcerated individual handbook. The auditor also interviewed four incarcerated individuals who had reported sexual abuse. All four incarcerated individuals told the auditor they knew that victim advocates were available to them. They all declined to speak to an advocate. The staff at the facility told them about the advocate and the OIG investigator told them about the Roxcy Bolton Rape Treatment Center. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.21(f). All sexual abuse investigations are performed by the Office of the Inspector General. They follow all provisions of this Standard. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.21(g). The auditor is not required to review this provision.

115.21(h). Homestead CI has an agreement with the Roxcy Bolton Rape Treatment Center to provide victim advocacy services for the institution. With this contract in place, it is not necessary to utilize staff members to provide victim advocate services. Based on this analysis, the auditor finds the facility in compliance with this provision.

Findings (by provision):

115.22(a). In the PAQ, the facility provided FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*. This procedure requires that all staff members at FDC immediately notify a shift supervisor, the Chief of Security, the Warden, or the OIG (Office of Inspector General) to evaluate the incarcerated individual’s concern or allegation. The auditor was also provided FDC Procedure 108.015 – *Sexual Battery, Sexual Harassment, and Sexual Misconduct Investigations*. This procedure calls for the OIG to be the investigative unit for allegations of sexual abuse on Department property. FDC Procedure 108.001 – *Authority of the Inspector General* was also provided in the PAQ. This procedure states, “The OIG is responsible for prison inspection and investigation, both criminal and internal affairs investigations...” The institution indicated there were a total of 22 allegations of sexual abuse of sexual harassment over the 12 months prior to the audit.

During the onsite phase of the audit, the auditor reviewed the facility’s incident reports and grievances from the previous 12 months. The auditor could not find any reports or grievances related to sexual abuse or sexual harassment that were not investigated properly. The auditor reviewed the sexual abuse and sexual harassment allegations at the same time. There were 22 allegations that were investigated properly. The auditor was provided written responses for the PREA interview questions from the Agency Head. The agency head confirmed that all allegations of sexual abuse and sexual harassment are investigated by the OIG. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.22(b). In the PAQ, the facility provided FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*. This procedure requires that all staff members at FDC immediately notify a shift supervisor, the Chief of Security, the Warden, or the OIG (Office of Inspector General) to evaluate the incarcerated individual’s concern or allegation.

During the onsite phase of the audit, the auditor interviewed an investigator with the OIG. The investigator confirmed that agency policy requires that all allegations of sexual abuse and sexual harassment are referred to the OIG for investigation. The auditor reviewed the Florida Department of Corrections website, and under the tab for Prison Rape Elimination Act, the Department lists the agency’s zero-tolerance information and provides the public an opportunity to file an allegation of sexual abuse or sexual harassment on a third-party grievance form. The agency’s PREA policy is also posted. The information can be found here: **Prison Rape Elimination Act (PREA) -- Florida Department of Corrections (state.fl.us)**. Based on this

This procedure states that all staff training on sexual abuse, sexual battery, staff sexual misconduct, and sexual harassment related to PREA standards shall be developed by the Bureau of Professional Development and Training (<i>p. 8-9</i>). All staff shall be thoroughly trained and informed regarding the Department’s zero-tolerance policy on sexual abuse, sexual battery, staff sexual misconduct, and sexual harassment at least every two years. The general PREA training shall include the ten points listed in the PREA standard. The auditor was provided the Department’s training curriculum in the PAQ. The auditor reviewed the <i>PREA training curriculum</i> and verified the appearance of the ten required points of the standard. The training material is presented in a manner that all staff members can understand, and the Department utilizes a test at the end of the course to measure understanding.</p> <p>During the onsite phase of the audit, the auditor interviewed 12 random staff members and spoke informally with several staff members. Each person interviewed</p>

indicated that they received PREA education prior to beginning work in the secure facility or had received it when the first PREA education was provided by the agency. Each officer easily provided the auditor with the date of their last date of training, as it is listed on their training card that is attached to their agency identification card that is worn while on duty. All officers interviewed verified the ten points of this standard in the Department training. The auditor was told that they get PREA training as part of their annual training. The auditor reviewed training records for ten randomly selected officers and verified attendance in the training and written proof of completion of the PREA course. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.31(b). The Department training curriculum related to PREA is consistent for all corrections staff across the state. Homestead Correctional Institution, however, houses females incarcerated individuals, so FDC provides additional training for this institution’s staff. The auditor was provided with the Training curriculum *FDC-035 - Female Offender Annual Refresher* in the PAQ. The auditor reviewed the curriculum. It is very detailed and discusses issues that extremely pertinent to female individuals. Issues that are highlighted include prior victimization and trauma, proper searches, manipulation, and staff misconduct with incarcerated individuals. These issues are all very important for staff members who work daily with female offenders. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.31(c). The agency provides training annually for all staff members. Training related to PREA has been provided to staff since 2010. The auditor reviewed training records and determined that all 172 current staff members have received PREA education. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.31(d). All classroom training and online classes require staff to acknowledge, in writing or electronically, they understand and will comply with the training on PREA. The PREA course includes a test to confirm the staff member’s understanding of the information provided.

The auditor reviewed random training records during the onsite phase of the audit. The records show acknowledgement of completion of the PREA training on an annual basis. Records show full completion of the training by staff. Based on this analysis, the auditor finds the facility in compliance with this provision.

Findings (by provision):

115.32(a). In the PAQ, the facility provided FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*. The procedure states, “The institution shall ensure that all contractors and volunteers who have contact with inmates are trained on their responsibilities under this and related policies via Professional Development and Training lesson plan “*Prison Rape Elimination Act Training for Interns, Volunteers, and Contractors Read and Sign*”. The auditor was provided a copy of that training document in the PAQ. The agency indicated that 402 approved volunteers and contractors, including Aramark in the kitchen, Centurion in medical, and the two industry contractors, Pride and Televerde, have been educated on the PREA policies.

During the onsite phase of the audit, the auditor interviewed three contractors. The three contractors, one from Aramark, one from Pride, and one from Televerde, confirmed completion of the required PREA education provided by the Department. The auditor was told that contractors provide all employees with required PREA education before the contractor is placed at an institution for employment. The Department then requires annual training with the Department’s curriculum. Volunteers are required to attend an orientation session prior to being approved to perform services at the institution. This education is repeated annually. The auditor was unable to interview a volunteer, as there were no volunteers in the institution during the onsite audit. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.32(b). The auditor reviewed the *FDC Prison Rape Elimination Act Training for Interns, Volunteers, and Contractors Read and Sign* training curriculum which was included in the PAQ. The curriculum provides the agency’s zero-tolerance policy and focuses on the volunteer or contractor’s role for prevention, detection, and reporting of sexual abuse and sexual harassment. The curriculum appears to be appropriate for the level of contact with incarcerated individuals.

During the onsite phase of the audit, the auditor interviewed three contractors. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.32(c). The auditor was provided training records in the PAQ. The agency provided the completed Form NI1-127 - *Training Affidavit* forms for several volunteers and contractors. They showed written proof that the volunteer and/or contractor had completed the required orientation material, which included the PREA education. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.33 Inmate education

Auditor Overall Determination: Exceeds Standard

Auditor Discussion

The following evidence was analyzed in making the compliance determination:

1. Documents: (*Policies, directives, forms, files, records, etc.*)
 1. FDC Procedure 601.210 - *Inmate Orientation*
 2. FDC Procedure 602.053 - *Prison Rape: Prevention, Detection, and Response*
 3. FDC Form NI1-120 - *Sexual Abuse Awareness Brochure*
 4. *PREA Orientation DVD*
2. Interviews:
 1. Specialized staff
 2. Random staff
 3. Random incarcerated individuals
3. Site Review Observations:
 1. Housing units
 2. Incarcerated individual orientation

Findings (by provision):

115.33(a). In the PAQ, the auditor was provided FDC Procedure 601.210 - *Inmate Orientation*. The procedure states, “The inmate orientation program provides the necessary information important to an inmate upon entry into the Florida Department of Corrections and throughout her/his incarceration.” A major component of the initial orientation program is education on PREA and sexual abuse in prison. The procedure describes initial PREA education as the Department’s zero-tolerance policy and how to report incidents or suspicion of sexual abuse or sexual harassment via the “*Sexual Abuse Awareness Brochure*” (Form NI1-120). Homestead CI provided documentation

to show 651 incarcerated individuals received over the last 12 months prior to the audit and all 651 incarcerated individuals had received the intake education.

During the onsite phase of the audit, the auditor toured Homestead CI's Visitor's Park (VP) where the institution performs receiving for new intake individuals transferred in from other FDC institutions. During the site review, the auditor walked through the intake process with intake staff as there were no new intake individuals from another institution during the audit. The intake officer explained the process, including strip searches, property processing, medical evaluations, and initial classification screening. This process also includes new intake orientation. The auditor viewed copies of all new intake information, including the initial PREA education brochure.

The auditor was then provided with a copy of the acknowledgement form that is to be signed by the new intake individuals, verifying receipt of the PREA education. The auditor interviewed 16 random incarcerated individuals during the onsite audit. They all described receiving education about PREA when they arrived at Homestead CI. All 16 incarcerated individuals could easily describe the zero-tolerance policy, knew what behavior was prohibited, and knew how to report sexual abuse. While in receiving, the auditor interviewed the intake staff, and they confirmed providing orientation and intake PREA education to all incarcerated individuals while they did the intake process. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.33(b). In the PAQ, the auditor was provided FDC Procedure 601.210 - *Inmate Orientation*. The procedure states, "The inmate orientation program provides the necessary information important to an inmate upon entry into the Florida Department of Corrections and throughout her/his incarceration." The procedure requires comprehensive education for incarcerated individuals to be provided after the incarcerated individual is transferred into an institution. The comprehensive education includes PREA education, in the form of *Sexual Assault and Sexual Harassment Orientation*. This is completed through the viewing of a new *PREA orientation DVD* provided by FDC. The educational video is provided by FDC and includes valuable information based on a video previously provided by the PREA Resource Center and Just Detention International, only shorter, and easier to read and understand. Homestead CI provided documentation to show 547 incarcerated individuals whose length of stay was 30 days or more over the last 12 months prior to the audit and all 547 incarcerated individuals had received comprehensive education.

During the onsite phase of the audit, the auditor interviewed intake staff and a senior classification officer, and they confirmed the use of the *PREA video DVD*, to ensure that all incarcerated individuals can view the video and receive the PREA education.

The auditor interviewed 16 random incarcerated individuals during the onsite phase of the audit. All 16 incarcerated individuals confirmed receiving the PREA education at intake and could explain the zero-tolerance policy, as well as how to report allegations of abuse. The auditor walked through the intake process with intake staff as there were no new intake individuals from another institution during the audit. A senior classification officer explained to the auditor how the orientation is performed. Prior to the video, individuals with noted disabilities are moved to the front of the

room, where it is easier to see and hear the video. This makes it easier for those with hearing or vision disabilities to either hear the video or read the captions on the screen. The video is shown to everyone, then again in Spanish for those that are LEP. Following the video, the senior classification officer explains the zero-tolerance policy and reads a script, repeating important information from the video, and providing agency and facility specific information, including hotline numbers and ways to report sexual abuse. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.33(c). The facility provides all incarcerated individuals with education regarding PREA at intake and during orientation. The auditor interviewed intake staff during the onsite audit and walked through the intake process. The orientation process and PREA education is provided for all incarcerated individuals in the facility's intake area when they are processed into the institution. There is a staff member specifically assigned to orientation to ensure that all incarcerated individuals receive education. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.33(d). In the PAQ, the auditor was provided FDC Procedure 602.053 - *Prison Rape: Prevention, Detection, and Response*. The procedure outlines resources available for the institution to provide the required PREA education to all incarcerated individuals, including those with recognized disabilities and those that are limited English proficient (LEP). Those resources include use of close captioning, large print materials, reading of materials, use of Department translators, or use of the Language Line services. The procedure also states that LEP incarcerated individuals are to be provided PREA education in their primary language.

During the onsite phase of the audit, the auditor could see posters in each of the housing units and in several other locations that were provided in English and Spanish. The posters inform incarcerated individuals of their right to be free from sexual abuse and sexual harassment, free from retaliation for reporting abuse and that the agency would properly respond to incidents of such abuse. Also, the *FDC Inmate Handbook* is available to incarcerated individuals in both languages. The auditor reviewed documentation under standard 115.16 to verify the various methods available to provide incarcerated individual education. A senior classification officer explained to the auditor how the orientation is performed. Prior to the video, individuals with noted disabilities are moved to the front of the room, where it is easier to see and hear the video. This makes it easier for those with hearing or vision disabilities to either hear the video or read the captions on the screen. The video is shown to everyone, then again in Spanish for those that are LEP.

The auditor interviewed one incarcerated individual who is partially deaf during the onsite audit. She confirmed being able to understand the education by reading it and sitting up front, close to the PREA video. She explained to the auditor that corrections staff requested that she sit in the front to better see and/or read the captions on the video. The auditor also interviewed three individuals who are LEP, and all three verified watching the PREA video in Spanish and could explain to the auditor the agency's zero-tolerance policy. All three of those individuals indicated they received documentation in Spanish. Based on this analysis, the auditor finds the facility in

compliance with this provision.

115.33(e). In the PAQ, the facility provided copies of signed acknowledgment of receipt of PREA education forms from incarcerated individuals at Homestead CI. The auditor reviewed several documents and confirmed the incarcerated individuals' receipt of the education. This information is also maintained in the Homestead CI corrections management system. Homestead CI provided documentation to show 547 incarcerated individuals whose length of stay was 30 days or more over the last 12 months prior to the audit and all 547 incarcerated individuals had received comprehensive education. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.33(f). During the site review, the auditor could see many forms of PREA education readily available for incarcerated individuals. In all housing units there are signs posted in English and Spanish. These signs remind incarcerated individuals that sexual abuse is not tolerated and provide the hotline number, as well as the information for available counseling services. The incarcerated individuals all have access to the kiosk where they can access information about PREA and have access to a grievance to complete if needed. The incarcerated individuals are also provided with a FDC Inmate Handbook, where the Department's sexual abuse policy is documented. Based on this analysis, the auditor finds the facility in compliance with this provision.

During the onsite audit, the auditor was utilized as an example for the incarcerated individual intake process and understood fully what newly incarcerated individuals would receive for intake PREA education. The education is complete and detailed and consistent for all FDC institutions. The auditor also received a form used to indicate the individuals receive the educational brochure, which is saved in the individual's corrections file. More importantly, the auditor observed the intake orientation and witnessed how this process was performed. The senior classification officer that explained the orientation did a fantastic job and made it easy to understand. She read the script well and the auditor could tell that she performs this routinely. The script was purposefully intended to reinforce the information in the video, so the incarcerated individuals had the most up-to-date agency and facility specific safety information. This made the video more important for the individuals' sexual safety and not just a video about PREA. This attention to reinforcing the PREA education, coupled with the PREA signage throughout the institution, makes it easy for the individuals housed at the institution to understand and remember the complete zero tolerance policy. This attention to detail and providing such detailed education clearly exceeds this PREA standard.

115.34	Specialized training: Investigations
	Auditor Overall Determination: Meets Standard
	Auditor Discussion

The following evidence was analyzed in making the compliance determination:

1. Documents: (Policies, directives, forms, files, records, etc.)
 - a. Training curriculum - Investigating Sexual Abuse in Confinement Settings: Training for Corrections Investigators
 - b. Training logs
2. Interviews:
 - a. Specialized staff

Findings (by provision):

115.34(a). In the PAQ, the facility provided the training curriculum - *Investigating Sexual Abuse in Confinement Settings: Training for Corrections*, which was provided by The Moss Group. This training was provided to all the Department investigators from the OIG office. The curriculum is known to the auditor and meets the requirements of the standard, covering each of the four points listed in the provision.

The auditor interviewed an investigator from the OIG during the onsite phase of the audit. The investigator confirmed that he had taken the course provided by the Department and had successfully received his certificate. The investigator was able to recite the four points from this provision and told the auditor it was included in the training. The auditor reviewed training records and verified completion of the online course provided by the Department. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.34(b). In the PAQ, the facility provided the training curriculum - *Investigating Sexual Abuse in Confinement Settings: Training for Corrections*, which was provided by The Moss Group. This training was provided to all the Department investigators from the OIG office. The curriculum is known to the auditor and meets the requirements of the standard, covering each of the four points listed in the provision. The institution stated that 180 investigators have received the required education.

The auditor interviewed an investigator from the OIG during the onsite phase of the audit. The investigator confirmed that he had taken the course provided by the Department and had successfully received his certificate. The investigator was able to recite the four points from this provision and told the auditor it was included in the training. The auditor reviewed training records and verified completion of the online course provided by the Department. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.34(c). The agency maintains documentation showing completion of the investigations course for 180 investigators from the OIG office. Investigators from the regional office are assigned to investigate incidents at Homestead CI. Based on this

analysis, the auditor finds the facility in compliance with this provision.

115.34(d). The auditor is not required to audit this provision.

115.35 Specialized training: Medical and mental health care

Auditor Overall Determination: Meets Standard

Auditor Discussion

The following evidence was analyzed in making the compliance determination:

1. Documents: (*Policies, directives, forms, files, records, etc.*)
 1. FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*
 2. *HSB 15.03.36 Post Sexual Battery Medical Action*
 3. Training certificates
2. Interviews:
 1. Specialized staff

Findings (by provision):

115.35(a). In the PAQ, the facility provided FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*. The procedure requires that all staff, including all medical and mental health staff receive training on the Department’s zero-tolerance policy on sexual abuse, sexual battery, staff sexual misconduct, and sexual harassment. In addition to the general PREA training, medical health care practitioners and mental health care practitioners who work regularly with incarcerated individuals shall complete specialized training. The auditor was also provided with *HSB 15.03.36 Post Sexual Battery Medical Action* in the PAQ. This health services bulletin establishes guidelines for the clinical management in an alleged incident of rape within FDC institutions. In the *Specialized Training* section, the bulletin states, “All medical and mental health care practitioners who work regularly in FDC facilities, including contracted staff, will be trained in: A. How to detect and assess signs of sexual abuse and sexual harassment; B. How to preserve physical evidence of sexual abuse; C. How to respond effectively and professionally to victims of sexual abuse and sexual harassment; and D. How and to whom to report allegations or suspicions of sexual abuse and sexual harassment.” The agency indicated that 100 medical and mental health staff members are approved for work at Homestead CI, and they all have completed the PREA education.

During the onsite phase of the audit, the auditor interviewed two staff members from the medical department. The medical and mental health services are provided by Centurion, the Department’s contracted medical provider. The auditor interviewed a Registered Nurse (RN), and a psychologist, who explained that all Centurion staff

receive general PREA education from Centurion before they are approved to work inside a correctional institution. This education is required by the FDC contract. FDC then provides additional PREA education when they begin work at the institution, then annually thereafter. The education includes the required specialized medical curriculum. The auditor informally interviewed two additional medical and mental health staff members, who also confirmed receiving general PREA education and the specialized medical education. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.35(b). Medical staff at the facility do not perform forensic examinations. Per contract, all forensic examinations are performed by the SART, a contracted provider who would respond to the institution to complete the exam. Therefore, the facility medical staff do not receive training related to these exams. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.35(c). The agency maintains copies completion of the education documentation. The auditor was provided with proof of completion of the specialized class of ten (10) randomly selected Centurion staff members. It is required in Centurion’s contract that all staff members receive the required PREA education prior to working in the secure facility and having incarcerated individual contact. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.35(d). The medical and mental health care staff are all employed by Centurion. All contractors receive the required PREA education in standard 115.31 during the contractor orientation program and by Centurion prior to being approved to enter the institution.

Through interviews with medical staff members and the HSA, the auditor learned that all staff in the medical unit receive the PREA training through their employer Centurion. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.41	Screening for risk of victimization and abusiveness

 5. Screening records
 6. Classification Spreadsheet
2. Interviews:
 1. Specialized staff
 2. Random incarcerated individuals
 3. Site Review Observations:
 1. Intake
 2. Classification

Findings (by provision):

115.41(a). The agency supplied FDC Procedure 602.053 - *Prison Rape: Prevention, Detection, and Response* in the PAQ. The procedure states, "Classification will screen all inmates within 72 hours of intake. Characteristics such as the inmate's age, criminal record, and prior identified history of sexual victimization or predation will be utilized to help determine if s/he is at risk of future victimization of sexual abuse, sexual battery, or is at risk of committing sexual abuse or sexual battery" (p. 7).

During the onsite phase of the audit, the auditor interviewed a senior classification officer who confirmed that all incarcerated individuals are screened upon admission to Homestead CI. The auditor sat with the officer while she performed the intake risk assessment with an incarcerated individual in intake. The auditor interviewed 16 random incarcerated individuals during the onsite audit. All 16 incarcerated individuals confirmed that they had been asked the screening questions. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.41(b). The agency supplied FDC Procedure 602.053 - *Prison Rape: Prevention, Detection, and Response* in the PAQ. The procedure states, "Classification will screen all inmates within 72 hours of intake. Characteristics such as the inmate's age, criminal record, and prior identified history of sexual victimization or predation will be utilized to help determine if s/he is at risk of future victimization of sexual abuse, sexual battery, or is at risk of committing sexual abuse or sexual battery" (p. 7). The agency stated that Homestead CI had 585 incarcerated individuals admitted to the institution within the past 12 months whose length of stay was at least 72 hours and all 585 incarcerated individuals had been screened by classification.

During the onsite phase of the audit, the auditor reviewed 10 incarcerated individual records which all included the screening from classification. The screening had been completed within 72 hours of the incarcerated individual's arrival at Homestead CI.

During an interview with a senior classification officer, it was confirmed that the screening of all incarcerated individuals is done within 72 hours of the incarcerated individual's arrival at Homestead CI. The auditor sat with the classification officer during the intake screening and watched the screening of an incarcerated individual during her intake to Homestead CI. The officer asked each of the questions on the screening tool. She was polite and comfortable asking each of the questions. The auditor could tell that the officer routinely performs this screening with individuals

during their intake. Also, the auditor interviewed 16 random incarcerated individuals and each incarcerated individual related that they spoke with classification after they transferred to Homestead CI and they were asked screening questions that included prior confinement in jail or prison, prior sexual abuse, identification as gay, lesbian, bisexual, transgender, or if they thought they would be in danger of sexual abuse while incarcerated at Homestead CI. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.41(c). The agency provided a copy of the *IBAS IRMS Assessment* screening tool to the auditor in the PAQ. The auditor reviewed the screening tool to determine if it was objective. The screening tool requires a simple yes or no answer to each of the questions and the scoring system is standard for everyone screened. Because the screening tool does not allow for subjective answers, the tool is objective. The outcome for the potential to be victimized or become a predator is based on a standard scoring system. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.41(d). The agency provided a copy of the *IBAS IRMS Assessment* screening tool to the auditor in the PAQ. The screening tool lists each of the criteria listed in this provision of the standard. Additionally, the screening tool provides space for the screener to add comments based on the observations of the screener regarding the incarcerated individual's potential for vulnerability. The tool asks the incarcerated individual for his or her feeling of safety while incarcerated.

During the onsite phase of the audit, the auditor interviewed a senior classification officer. She explained that she speaks directly with the incarcerated individual to complete the screening tool and ask all the questions on the tool. Classification officers are encouraged to include comments regarding their observations regarding safety and vulnerability based on the conversation with the incarcerated individual. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.41(e). The FDC screening tool provided to the auditor includes questions about the incarcerated individual's prior sexual abuse history in a detention facility, prior sexual abuse while incarcerated in FDC, and if he or she had committed sexual abuse at any time in the incarcerated individual's life. The screening asks the assessor to review known history of the incarcerated individual to determine if there is documentation of committed sexual abuse other than the incarcerated individual's admitted offenses. The screening also reviews additional violent criminal offenses.

The auditor interviewed a senior classification officer during the onsite phase of the audit. The officer confirmed that the screening tool includes questions about an incarcerated individual's prior acts of sexual abuse, prior convictions for violent offenses and history of prior institutional violence or sexual abuse. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.41(f). The agency supplied FDC Procedure 602.053 - *Prison Rape: Prevention, Detection, and Response* in the PAQ. The procedure states, "Within 30 days from the initial intake screening, the institution will reassess the inmate's risk of victimization or abusiveness."

During the onsite phase of the audit, the auditor interviewed a senior classification officer who confirmed that incarcerated individuals are reassessed within 30 days from the initial screening completion. Classification officers set a calendar reminder in the computer for each incarcerated individual following the intake screening. The reminder is set at 30 days to ensure the 30-day rescreening is performed on time per policy and the standard. The auditor also was present during the reassessment of an incarcerated individual and observed the process and the manner in which the officer completed the questionnaire. The auditor reviewed records for 10 incarcerated individuals and confirmed the reassessment was completed within 30 days of the incarcerated individual's arrival at Homestead CI. There were 547 incarcerated individuals admitted to the facility during the previous 12 months whose length of stay was 30 days or more and all 547 have been reassessed. During interviews with 16 random incarcerated individuals, the auditor asked if they were asked additional follow-up questions by classification staff, and each confirmed this reassessment. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.41(g). The agency supplied FDC Procedure 602.053 - *Prison Rape: Prevention, Detection, and Response* in the PAQ. The procedure states, "An inmate's risk level will be reassessed when warranted due to referral, request, incident of sexual abuse, or receipt of additional information that bears on the inmate's risk of sexual victimization or abusiveness."

The auditor interviewed a senior classification officer during the onsite audit, and she confirmed that incarcerated individuals are continually reassessed based on information that is received from other staff, incarcerated individuals, or through incident reports. During interviews with 16 random incarcerated individuals, the incarcerated individuals stated they recalled being asked follow-up questions by classification staff. The auditor reviewed records of reassessment in the investigation files. Each incarcerated individual that was included in a sexual abuse investigation was reassessed for victimization or abusiveness by classification and that reassessment was included in the investigation file. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.41(h). The agency supplied FDC Procedure 602.053 - *Prison Rape: Prevention, Detection, and Response* in the PAQ. The procedure states, "Inmates will not be disciplined for refusing to answer, or for not disclosing complete information in response to the questions asked during the risk screening" (p. 8).

During the onsite audit, the auditor interviewed a senior classification officer, who stated that incarcerated individuals will not be disciplined if they refuse to answer questions or decide not to disclose information during the risk screening. It is the incarcerated individual's decision not to disclose the information. The auditor was told that staff will attempt to encourage the incarcerated individual to answer the questions by reminding the incarcerated individual that the information is used to keep them safe. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.41(i). The agency has taken specific steps to safeguard the risk screening

information. The information is maintained in the computer and accessible only by classification staff.

During the onsite phase of the audit, the auditor interviewed a senior classification officer. She told the auditor that only classification staff can access the risk screening information in the computer. Without a classification logon, you cannot access the information. The PREA compliance manager was interviewed, and he stated that screening information is accessible by classification staff only, or by the PCM, to assist with safety and housing decisions. Without a valid login for classification, you cannot access the screens to see the screening information. The auditor was provided written responses to the PREA interview questions from the PREA coordinator. The PREA coordinator stated that the classification interview is on the computer and only accessed by classification. This is to protect sensitive information. During the site review, the auditor asked several random officers to access the screening and they were unable to access it. Based on this analysis, the auditor finds the facility in compliance with this provision.

work/program assignments consistent with custody level and medical status.” The agency provided copies of scoring decision sheets for housing of individuals at Homestead CI in the PAQ. The auditor was able to see the factors from the risk screening utilized to keep separate incarcerated individuals that score as vulnerable from those that score as potential abusers.

During the onsite phase of the audit, the auditor interviewed the PREA compliance manager, who was asked how the agency utilizes the information from the risk screening. He stated that the scoring for risk of victimization and risk of being abusive is entered into the classification system and their IBAS system utilizes the scoring to ensure that incarcerated individuals with different scoring are not housed in cells together and, sometimes, not even in the same housing units. This ensures the required separation for safety. The auditor also interviewed a senior classification officer. She also confirmed the use of the screening information to properly house those incarcerated individuals at risk of victimization separate from those with a potential to be abusive. These housing decisions are made on an individual basis and are based on the risk screening scoring system. This separation affects not only where the incarcerated individual is housed, but also the jobs and programs that are assigned to the incarcerated individual. The classification officer showed the auditor exactly how it worked using the random interview incarcerated individuals as examples. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.42(b). In the PAQ, the facility provided FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*. 115.42(c). In the PAQ, the facility provided FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*. The procedure states, “Housing for transgender and/or intersex inmates will be determined on a case by case basis. The

inmate's safety as well as the safety and the security of the institutional compound will be taken into consideration when making the housing determination." The institution provided completed Form DC6-1009 - *Transgender/Intersex Housing Determination* forms for six transgender individuals who had been housed at Homestead CI. The forms show how housing determinations are made for each individual person.

During the onsite phase of the audit, the auditor interviewed the PREA compliance manager, who confirmed that transgender and intersex incarcerated individuals are reviewed on a case-by-case basis, which is consistent with the policy. The auditor interviewed five incarcerated individuals that identify as transgender during the onsite audit. They all told the auditor that they were asked for their housing preference during the risk screening process and had been asked about their safety. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.42(d). In the PAQ, the facility provided FDC Procedure 602.053 - *Prison Rape: Prevention, Detection, and Response*. The procedure requires that transgender and intersex incarcerated individuals be assessed biannually by classification.

Classification must conduct an interview and a review of the incarcerated individual's housing, program, and work assignments to determine if there any necessary changes or threats to the incarcerated individual's safety (p. 6-7). The auditor reviewed several completed *IBAS Screenings* for transgender individuals and was able to verify completion of the screening at the appropriate time frames.

The auditor interviewed a senior classification officer during the onsite phase of the audit. She confirmed that transgender incarcerated individuals are reassessed twice per year to verify that the transgender incarcerated individual is not in any danger and is housed safely, works in a safe situation, and attends safe programming. The reassessment is properly documented when it is completed. The auditor also interviewed the PREA compliance manager, who confirmed that this reassessment for transgender incarcerated individuals occurs twice yearly. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.42(e). In the PAQ, the facility provided FDC Procedure 602.053 - *Prison Rape: Prevention, Detection, and Response*. The procedure states, "A transgender and/or intersex inmate's own view, with respect to their own safety, shall be given serious consideration."

During the onsite phase of the audit, the auditor interviewed five incarcerated individuals that identify as transgender during the onsite audit. They all told the auditor that they were asked for their housing preference during the risk screening process and had been asked about their safety. The auditor interviewed a senior classification officer who stated that transgender incarcerated individuals are asked about their housing preferences during the screening process. The auditor also interviewed the PREA compliance manager, who also stated that transgender incarcerated individuals are provided the opportunity to share their preferences for housing. Their view of their safety is a part of the housing decisions, along with the screening scores, the needs of the Department, and the safety of the rest of the

compound. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.42(f). In the PAQ, the facility provided FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*. The procedure states, “An inmate who has identified as transgender and/or intersex during the SRI assessment shall be given the opportunity to shower separately from other inmates.”

The auditor interviewed five incarcerated individuals that identify as transgender during the onsite audit. The five incarcerated individuals told the auditor that they can shower separately in their housing unit. The auditor interviewed a senior classification officer, who stated that transgender incarcerated individuals are given the opportunity to shower separately. Officers understand the FDC policy and understand the incarcerated individual’s need for safety. The auditor also interviewed the PREA compliance manager who stated that officers provide transgender incarcerated individuals the opportunity to shower separately from other incarcerated individuals. This is done easily in those dormitories with doors on the showers. In open restrooms and showers, the transgender incarcerated individual must be allowed to enter the shower alone or possibly after lockdown after others have completed their showers. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.42(g). The auditor was provided with lists of incarcerated individuals who identified as gay and transgender prior to the onsite audit. These incarcerated individuals were housed throughout Homestead CI and were not confined to a special housing unit. The auditor was provided the full housing roster for Homestead CI. There were no housing unit designations for a gay, bisexual, or transgender unit.

The auditor interviewed six gay and transgender incarcerated individuals during the onsite audit. All six incarcerated individuals told the auditor they were housed in general population housing units, and they were not confined in special housing units for gay and transgender incarcerated individuals. The auditor interviewed the PREA compliance manager who told the auditor that FDC is not under any consent decree or court order that requires them or allows them to house gay and transgender incarcerated individuals in a specific unit. The auditor was provided written responses to the PREA interview questions for the PREA coordinator. The PREA coordinator confirmed that there is no consent decree and that incarcerated individuals are screened and housed on an individual basis. Based on this analysis, the auditor finds the facility in compliance with this provision.

The auditor has evaluated the institution’s use of the required PREA screening, performed on the agency’s *IBAS IRMS Assessment*. The auditor observed a senior classification officer performing the screening with an incarcerated individual, as well as the 30-day rescreening. The auditor also reviewed documentation that shows the significant number of factors that prevent housing vulnerable individuals with those that would have a tendency to be predators. The auditor observed the agency’s classification system that provides a calendar and reminders for upcoming screenings that assures that required rescreening is completed timely. Also, the auditor observed proper screenings at appropriate time frames for all transgender individuals

	<p>housed at Homestead CI. This compilation of documentation shows that Homestead CI is utilizing screening information in the best way possible to ensure the safety of all individuals housed at Homestead CI. Based on this information, the auditor considers Homestead CI to have exceeded this standard.</p>

The procedure states, “Inmates at high risk of victimization will not be involuntarily segregated unless an assessment of all other available alternatives has been made and it is determined that there are no available alternative means of separation from likely abusers.” In the PAQ, Homestead CI states that there have been zero incarcerated individuals placed in involuntary segregation over the previous 12 months as a means to separate them from likely abusers.</p> <p>During the onsite phase of the audit, the auditor reviewed incarcerated individual screening records for those who were assessed to be at a high risk for victimization. Those incarcerated individuals are routinely placed in general population or would be transferred to another institution if the risk of victimization was so great that the individual would not be safe in population. Based on this analysis, the auditor finds the facility in compliance with this provision.</p>

115.43(b). During the onsite phase of the audit, the auditor walked through the institution's only segregated housing unit. The auditor talked to several incarcerated individuals that were in close confinement and all incarcerated individuals had full access to the telephone, the kiosk, medical and mental health care, incarcerated individual requests, grievance forms, and work programs at the level three confinement level. The auditor confirmed this information by speaking with officers that worked in the confinement unit. Even though incarcerated individuals were held in confinement, they still had access to all of this, as much as possible. This confirmed that if Homestead CI saw the need to confine an incarcerated individual due to the high risk for victimization, they could still provide the incarcerated individual with access to programs and privileges, consistent with this provision. The auditor interviewed two officers assigned to segregated housing and they confirmed the access to programming and privileges in confinement. The auditor was unable to interview an individual housed in confinement due to his high risk of victimization, as there were none housed there at the time of the onsite audit. Therefore, the auditor was unable to review any additional information related to this provision. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.43(c). In the PAQ, the facility provided FDC Procedure 602.053 - *Prison Rape: Prevention, Detection, and Response*. The procedure states, "Incarcerated individuals at high risk of victimization will not be involuntarily segregated unless an assessment of all other available alternatives has been made and it is determined that there are no available alternative means of separation from likely abusers." In the PAQ, Homestead CI states that there have been no incarcerated individuals placed in involuntary segregation over the previous 12 months as a means to separate them from likely abusers.

During the onsite phase of the audit, the auditor interviewed the Warden who stated that Homestead CI had not placed any incarcerated individuals in involuntary segregation over the last 12 months. Those incarcerated individuals are housed in general population or would be transferred to another institution if the risk of victimization was so great that the individual would not be safe in population. The auditor interviewed two officers that work in confinement, and they stated that no incarcerated individuals have been housed in confinement due to high risk of victimization. There were no incarcerated individuals in confinement due to the high risk for victimization for the auditor to interview. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.43(d). During the onsite phase of the audit, the auditor reviewed records of several incarcerated individuals that were found to be at high risk for sexual victimization. None of these incarcerated individuals was held in segregation during her incarceration at Homestead CI. Also, through the review of the institution's sexual abuse allegations, the auditor found that none of the alleged victims were placed in involuntary segregation following the allegation. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.43(e). In the PAQ, the auditor was provided *Florida Administrative Code 33-602.220 Administrative Confinement*. This Code requires the agency to interview

the incarcerated individual and “prepare a formal assessment and evaluation after each 30 day period in administrative confinement.” This review is completed for any incarcerated individual in confinement, regardless of the reason for confinement. The auditor understands this would include those incarcerated individuals in segregation due to high risk for victimization.

During the onsite phase of the audit, the auditor interviewed two officers that work in confinement, and they stated that no incarcerated individuals have been housed in confinement due to high risk of victimization. Although there are no incarcerated individuals currently in segregation for this reason, all incarcerated individuals in segregation are reviewed every 30 days. There were no incarcerated individuals in confinement due to the high risk for victimization for the auditor to interview. Based on this analysis, the auditor finds the facility in compliance with this provision.

In the PAQ, the auditor was provided FDC Procedure 602.053 – <i>Prison Rape: Prevention, Detection, and Response</i>. This procedure states that all incidents of sexual abuse, sexual battery, staff sexual misconduct, and sexual harassment will be reported (<i>p. 10</i>). The procedure outlines multiple ways for staff and incarcerated individuals to report allegations of sexual abuse and sexual harassment in FDC institutions. The agency also provided the auditor with FDC Form NI1-120 <i>Sexual</i></p>

Abuse Awareness Brochure, which also lists the multiple ways to report sexual abuse and sexual harassment. The auditor was also provided FDC Form NII-132 *Zero Tolerance*, the sexual abuse sign that is posted throughout the institution. The sign tells the incarcerated individuals how to report incidents of sexual abuse and sexual harassment.

During the onsite phase of the audit, the auditor completed a site review and visited all housing units. Signs informing incarcerated individuals of the multiple reporting ways were clearly posted, in two languages, in each housing unit. The auditor interviewed 16 random incarcerated individuals and all incarcerated individuals could easily tell the auditor several ways that they could report abuse, harassment and concerns regarding staff neglect or lack of responsibility. Nearly all 16 incarcerated individuals mentioned the PREA hotline and talking to a corrections officer as their first avenue to report abuse. The individuals told the auditor that they know the hotline because they see it on the signs in the housing unit. The signs are posted by telephones throughout the facility. The consultant from the agency PREA coordinator office (the CSC) used the incarcerated individual telephone in several housing units and verified that the phone would connect with the hotline, and it did. The CSC provided the auditor with proof of the hotline results the next day. The auditor interviewed 12 random staff members. All staff could list at least four different ways that incarcerated individuals could report abuse. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.51(b). Homestead CI utilizes the Roxcy Bolton Rape Treatment Center as the resource to take outside reporting calls from its incarcerated individuals. The auditor was provided the *Contract between the Florida Department of Corrections and Roxcy Bolton Rape Treatment Center* in the PAQ, as verification of the agreement to provide services. The Roxcy Bolton Rape Treatment Center's information is readily available to incarcerated individuals on signs posted in each of housing units at Homestead CI. The auditor saw the signs posted during the facility site review. The outside entity information is also in the *Sexual Abuse Awareness Brochure*. Incarcerated individuals in segregation without telephone access due to discipline are also provided a mailing address for the Roxcy Bolton Rape Treatment Center in the Brochure. FDC does not house incarcerated individuals solely for civil immigration, so Homestead CI is not required to comply with this part of this provision.

During the onsite phase of the audit, the auditor completed a full site review and located the posted zero-tolerance signs throughout the facility with the reporting number for the outside entity. The posted signs were written in two languages, English and Spanish. The auditor interviewed the PREA compliance manager and asked about the outside reporting entity. He explained that FDC provides two hotline numbers. One is an internal hotline, but the second is the required source outside the agency, answered by staff at the Roxcy Bolton Rape Treatment Center. The information is posted on all the signs and is in the brochure handed out to all the incarcerated individuals. The auditor interviewed 16 random incarcerated individuals and all 16 knew how to report allegations of sexual abuse through the hotline. They knew that the information was posted on the signs in the housing unit. Based on this analysis, the auditor finds the facility in compliance with this standard.

115.51(c). FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response* was provided to the auditor in the PAQ. This procedure states, “All staff, volunteers, and contractors will ensure that they foster an environment within their facility that precludes sexual abuse, sexual battery, staff sexual misconduct, and sexual harassment.” This includes taking reports of abuse seriously and initiating immediate reporting of alleged abuse to the OIG. The procedure allows for reporting of incidents verbally to any staff member, through the internal hotline, through the external hotline, filing an incarcerated individual request form, filing a formal grievance, filing an informal grievance, filing a third-party grievance, or having a family member, friend, or other public member complete a citizen’s complaint form.

During the onsite phase of the audit, the auditor interviewed 12 random staff members. All staff interviewed were aware of their responsibility to take verbal reports of abuse and immediately contact a supervisor to file that report. There were two staff members that reported having received a verbal allegation from an incarcerated individual. Each of the 16 random incarcerated individuals interviewed were aware that they could report sexual abuse directly to any staff member, call the hotline, write a grievance, or have someone else file a report for them. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.51(d). In the PAQ, the auditor was provided with FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*. The procedure, on page 11, states, “Staff may privately report sexual abuse and sexual harassment of incarcerated individuals to any supervisor or administrator.”

The auditor interviewed 12 random staff members. All 12 officers explained to the auditor that they could talk to any supervisor to privately report incidents of sexual abuse and sexual harassment. Based on this analysis, the auditor finds the facility in compliance with this provision.

Interviews:

1. Targeted incarcerated individuals

Findings (by provision):

115.52(a). The Florida Department of Corrections is not exempt from this standard, as it does have in place an administrative grievance procedure for incarcerated individuals. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.52(b). The formal and informal grievance procedures for FDC are governed by *Florida Administrative Code (FAC) 33-103*. The agency provided *FAC 33-103.006* in the PAQ for the auditor to review. Under the *Formal Grievance* section, the Code allows for no imposition of a time limit for grievances submitted regarding an allegation of sexual abuse, the imposition of time limits for grievances submitted for portions of the grievance that do not apply to sexual abuse, no requirement for an incarcerated individual to use the informal grievance process for alleged sexual abuse incidents, and no restriction on the agency's ability to defend against an incarcerated individual lawsuit on the grounds that the statute of limitations has expired. These four points are required under this provision. FDC provides incarcerated individuals with the *FDC Inmate Orientation Handbook*. In the Handbook, incarcerated individuals are advised that grievance procedures are available under the FAC. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.52(c). The formal and informal grievance procedures for FDC are governed by *Florida Administrative Code (FAC) 33-103*. The agency provided *FAC 33-103.006* in the PAQ for the auditor to review. Under the *Formal Grievance* section, the Code provides that incarcerated individuals filing grievances alleging sexual abuse shall not be instructed to file the grievance to the individual who is the subject of the complaint. Additionally, grievances of this nature shall not be referred to the subject of the complaint. FDC provides incarcerated individuals with the *FDC Inmate Orientation Handbook*. In the Handbook, incarcerated individuals are advised that grievance procedures are available under the FAC. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.52(d). The formal and informal grievance procedures for FDC are governed by *Florida Administrative Code (FAC) 33-103*. The agency provided *FAC 33-103.006* in the PAQ for the auditor to review. Under the *Formal Grievance* section, the Code requires that following investigation and evaluation by the reviewing authority, a response shall be provided to the incarcerated individual within 20 calendar days of receipt of the grievance. The Code allows the Department to claim an extension of time to respond of up to 70 days for additional investigation. If the Department claims the extension, the incarcerated individual must be notified in writing of the extension and a date by which the decision will be made. The agency noted that they had received two (2) grievances related to sexual abuse over the previous 12 months. The agency had not requested an extension of time for any such grievances.

During the onsite phase of the audit, the auditor interviewed four incarcerated individuals who had reported sexual abuse. The auditor asked how their allegation

was reported. All four incarcerated individuals had reported their allegations verbally to staff members. The auditor reviewed their investigations files and confirmed the information. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.52(e). The formal and informal grievance procedures for FDC are governed by *Florida Administrative Code (FAC) 33-103*. The agency provided *FAC 33-103.006* in the PAQ for the auditor to review. Under the *Formal Grievance* section, the Code states third parties, including fellow incarcerated individuals, staff members, family members, attorneys, and outside advocates, shall be permitted to assist incarcerated individuals in filing grievances alleging sexual abuse. Third parties are also permitted to file such grievances on behalf of incarcerated individuals. If a third party is to file the grievance, the incarcerated individual shall elect to allow the grievance to proceed or request the grievance be stopped. If the incarcerated individual requests the grievance be stopped, it must be documented. Homestead CI indicated that there were no such grievances that had been filed by a third party over the last 12 months. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.52(f). The formal and informal grievance procedures for FDC are governed by *Florida Administrative Code (FAC) 33-103*. The agency provided *FAC 33-103.006* in the PAQ for the auditor to review. Under the *Formal Grievance* section, the Code establishes an emergency grievance related to sexual abuse. The Code states, “When receiving an emergency grievance from an incarcerated individual expressing belief, they are subject to a substantial risk of imminent sexual abuse the institution must take immediate corrective action. Staff handling this grievance shall provide an immediate response within 48 hours and shall issue a final decision within 5 calendar days from the receipt of the grievance.” That response must indicate the agency’s determination whether the incarcerated individual is at substantial risk of imminent sexual abuse and the action taken in response to the emergency grievance. The agency indicated they had received no emergency grievances over the last 12 months. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.52(g). In the PAQ, the facility provided FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*. The procedure states, “When it is determined that an incarcerated individual has filed a PREA report in bad faith, i.e., knowingly filed a false report, that incarcerated individual shall be subject to discipline.” The agency indicated they had no occurrences where the incarcerated individual was disciplined for filing a false report over the last 12 months. Based on this analysis, the auditor finds the facility in compliance with this provision.

The following evidence was analyzed in making the compliance determination:

1. Documents: (*Policies, directives, forms, files, records, etc.*)
 1. FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*
 2. *FDC Inmate Orientation Handbook*
 3. FDC Form NI1-120 *Sexual Abuse Awareness Brochure*
 4. *Contract between the Florida Department of Corrections and Roxcy Bolton Treatment Center*
2. Interviews:
 1. Specialized staff
 2. Random incarcerated individuals
 3. Targeted incarcerated individuals
3. Site Review Observations:
 1. Housing units
 2. Kiosks

Findings (by provision):

115.53(a). The facility provided information from FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response* in the PAQ. The procedure states that any incarcerated individual who alleges sexual abuse will be advised of the right to have a victim advocate present during the forensic examination and/or the investigative interview. Also, victims will be offered support services by means of a mailing address and/or telephone numbers to local community support group organizations. The auditor was also provided the *FDC Inmate Orientation Handbook*. In the Handbook, the incarcerated individuals are advised that communication with victim advocacy services will be kept confidential, except information that requires mandatory reporting, such as if the incarcerated individual intends to harm himself or someone else. The incarcerated individual is also advised that if the incarcerated individual is asking the advocate to report the PREA allegation, the incarcerated individual must sign a release of information first. FDC does not house persons detained solely for civil immigration purposes, so this provision does not apply.

During the onsite phase of the audit, the auditor interviewed 16 random incarcerated individuals. Fifteen of the 16 incarcerated individuals interviewed could explain to the auditor the available support and advocacy services. They knew that these services were available if someone was a victim of sexual abuse, but also knew they could contact someone outside because they had read it on the sexual abuse signs. They did not know the phone number or address but knew it was posted on the signs.

None of the incarcerated individuals had used the services. The auditor interviewed four incarcerated individuals who had reported sexual abuse. All four incarcerated individuals were given the opportunity to contact a victim advocate and they chose not to. They told the auditor they saw no reason to talk with someone but knew they could do that. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.53(b). The auditor was provided the *FDC Inmate Orientation Handbook* in the PAQ. In the Handbook, the incarcerated individuals are advised that communication with victim advocacy services will be kept confidential, except information that requires mandatory reporting, such as if the incarcerated individual intends to harm himself or someone else. The incarcerated individual is also advised that if the incarcerated individual is asking the advocate to report the PREA allegation, the incarcerated individual must sign a release of information first.

During the site review, the auditor interviewed 16 random incarcerated individuals and 15 incarcerated individuals were aware of the available advocacy services. Those incarcerated individuals knew the communication with advocates would be confidential because it is clearly stated in the incarcerated individual brochure. The auditor interviewed four incarcerated individuals who had reported sexual abuse during the onsite audit. All four passed up the opportunity to speak with a victim advocate. They were unsure that any communication with an advocate would be confidential. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.53(c). In the PAQ, the agency provided the auditor a copy of the *Contract between the Florida Department of Corrections and Roxcy Bolton Treatment Center*. The contract provides for the Roxcy Bolton Treatment Center to provide a victim advocate to respond to Homestead CI to support a sexual abuse victim when a sexual assault forensic examination is performed. This is required by the PREA standards. The auditor contacted a representative at the Roxcy Bolton Treatment Center and confirmed the steps that would be taken when they were contacted by telephone. The auditor was told the advocate would respond directly to Homestead CI and would be available to assist the incarcerated individual victim through the entire examination, interview, and criminal investigative process. Based on this analysis, the auditor finds the facility in compliance with this provision.

The auditor reviewed the form and the web page and confirmed that it meets the requirements of this provision. The web page can be found at Prison Rape Elimination Act (PREA) -- Florida Department of Corrections (state.fl.us). Incarcerated individuals are informed through signage and the incarcerated individual handbook that the public can file allegations on the third-party grievance form. Documents: (<i>Policies, directives, forms, files, records, etc.</i>) <ol style="list-style-type: none"> 1. FDC Procedure 602.053 – <i>Prison Rape: Prevention, Detection, and Response</i> 2. Interviews: <ol style="list-style-type: none"> 1. Specialized staff 2. Random staff <p>Findings (by provision):</p> <p>115.61(a). In the PAQ, the facility provided FDC Procedure 602.053 – <i>Prison Rape: Prevention, Detection, and Response</i>. The procedure establishes guidelines for the proper and immediate reporting of sexual abuse and sexual harassment incidents as well as provides for safeguards for victims, management of evidence, and actions to be taken to report the allegation through the substantiation of the allegation by investigation. The procedure states, “Any employee, volunteer, contractor, or intern who observes, has knowledge of, or receives information, written or verbal (either first hand or from a third party), regarding the fear of, coercion into, or actual sexual abuse, sexual battery, staff sexual misconduct, or sexual harassment will immediately notify the Shift Supervisor, the Chief of Security, the Warden, or the OIG, who will then take immediate steps to evaluate the incarcerated individual’s concern/ allegation.” The procedure requires that staff promptly report any allegation involving retaliation against alleged victims or identified reporters of sexual abuse or sexual harassment and promptly report information regarding staff neglect or violation of responsibilities that may have contributed to an incident of sexual abuse, sexual harassment, or retaliation. The procedure goes on to say that the employee’s failure to report or take immediate action will be subject to discipline, up to and including termination.</p>

During the onsite phase of the audit, the auditor interviewed 12 random staff members. Every person interviewed clearly stated that they were required to immediately report all allegations of sexual assault or sexual harassment. During the site review, the auditor spoke with staff members throughout the compound. Each staff member knew that it was a requirement for all staff to immediately report all knowledge or suspicion of sexual abuse of an incarcerated individual. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.61(b). FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response* includes a prohibition on releasing information related to sexual abuse or sexual harassment incidents. The procedure states that staff will not reveal any information related to the sexual abuse or sexual harassment allegation to anyone other than to the extent necessary to make treatment, investigation, and other security and management decisions (p. 11).

During the onsite phase of the audit, the auditor interviewed 12 random staff members. All 12 officers were aware of the agency policy that required immediate reporting of sexual abuse and sexual harassment allegations. Each of the officers understood the requirement to maintain privacy and not share the information with others unless necessary. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.61(c). The State of Florida requires mandatory reporting of incidents of sexual abuse of an incarcerated individual under Florida State Statute 944.35(3)(d). This law does not provide an exception for medical and mental health practitioners and all staff members of the Florida Department of Corrections and Centurion are required to immediately report all incidents.

During the onsite phase of the audit, the auditor interviewed two staff members from the medical department. Both confirmed that they are mandatory reporters of sexual abuse of incarcerated individuals. Staff did confirm that they would inform the incarcerated individual of their duty to report and limits to the confidentiality of information learned from the incarcerated individual. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.61(d). In the State of Florida, staff are required to report allegations of sexual abuse of a person under the age of 18 to the Florida Department of Children and Families (DCF). The auditor interviewed the Warden during the onsite phase of the audit. The Warden stated that immediate action would be taken to ensure the incarcerated individual's safety and DCF and outside law enforcement would be notified along with the required internal agencies. Medical and mental health would be notified, the OIG would be notified, and the SART would be notified. The auditor received written responses to the PREA interview questions from the PREA coordinator. The PREA coordinator stated that for individuals under the age of 18, the agency would contact outside law enforcement and report to the Office of Inspector General. For vulnerable adults, OIG would be contacted and report to DCF per Florida Statute. Based on this analysis, the auditor finds the facility in compliance with this provision.

	<p>115.61(e). Based on this analysis, the auditor finds the facility in compliance with this provision.

Auditor Discussion

The following evidence was analyzed in making the compliance determination:

- 1. Documents: (*Policies, directives, forms, files, records, etc.*)
 - 1. FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*
 - 2. Other institution notification
 - 3. Sexual Abuse Investigation files
- 2. Interviews:
 - 1. Agency head
 - 2. Specialized staff

Findings (by provision):

115.63(a). In the PAQ, the facility provided FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*. The procedure requires that if staff at the receiving institution receives information that sexual abuse occurred at another institution the receiving institution's Warden notify the sending institution's Warden within 72 hours of receiving the allegation. The notification must then be documented on the proper form. The receiving institution, where the allegation is reported, will be responsible to initiate the sexual abuse reporting process. In the PAQ, Homestead CI noted there were no such notifications over the 12 months prior to the audit.

The auditor was provided written responses to the PREA audit interview questions for the PREA coordinator. In the responses, the PREA coordinator confirmed that the facility does make these notifications. During the onsite phase of the audit, the auditor reviewed the institution's sexual abuse investigation files from the previous 12 months. The auditor was unable to locate any notifications to another institution in any of the investigation files, as there were no allegations of sexual abuse at another institution made by an incarcerated individual over the previous 12 months at Homestead. Each allegation was investigated properly as required by policy. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.63(b). In the PAQ, the facility provided FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*. The procedure requires that if staff at the receiving institution receives information that sexual abuse occurred at another institution the receiving institution’s Warden notify the sending institution’s Warden within 72 hours of receiving the allegation. In the PAQ, Homestead CI indicated there were no such incidents over the 12 months prior to the audit.

During the onsite phase of the audit, the auditor reviewed the institution’s sexual abuse investigation files from the previous 12 months. The auditor was unable to locate any notifications to another institution in any of the investigation files, as there were no allegations of sexual abuse at another institution made by an incarcerated individual over the previous 12 months at Homestead. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.63(c). In the PAQ, Homestead CI indicated there were no such incidents over the 12 months prior to the audit. The auditor was unable to locate any notifications to another institution in any of the investigation files, as there were no allegations of sexual abuse at another institution made by an incarcerated individual over the previous 12 months at Homestead. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.63(d). In the PAQ, the facility provided FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*. The procedure states that the receiving institution will be responsible for contacting the EAC (Emergency Action Center) and entering the report for appropriate handling. The OIG will also be notified. Even though this appears to be contrary to this provision, it is appropriate, as the OIG will investigate the allegation regardless of where at FDC the incident occurred. The institution noted no such notifications to Homestead CI during the 12 months prior to the audit.

During the onsite phase of the audit, the auditor interviewed the Warden. The Warden was aware of no such notifications from other institutions over the previous 12 months. The auditor was provided with written responses to the PREA interview questions from the Agency Head. In his response, the Secretary stated that the point of contact for such notifications is either the facility where the incident occurred or the OIG. The incident would automatically be forwarded to the OIG for full investigation. Based on this analysis, the auditor finds the facility in compliance with this provision.

 2. Sexual Abuse Investigation files
2. Interviews:
 1. Targeted incarcerated individuals
 2. Specialized staff
 3. Random staff

Findings (by provision):

115.64(a). The facility provided FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response* in the PAQ. In the section entitled *Response*, the agency outlines the responsibilities for staff members to properly respond to allegations of sexual abuse. The procedure requires the first security staff member to separate the alleged victim and abuser, preserve and protect any potential crime scene until appropriate steps can be taken to collect any evidence, request the alleged victim not take any actions that could destroy physical evidence, and ensure the alleged abuser does not take any actions that could destroy physical evidence. The agency stated there were 21 allegations of sexual abuse reported over the previous 12 months, but none of those were reported within a time period that still allowed for the collection of physical evidence. In each case, documentation showed the first responding security staff member properly separated the alleged victim from the abuser and made an attempt to preserve evidence from the victim and abuser.

The auditor interviewed two staff members who were first responders to incidents of sexual abuse during the onsite phase of the audit. Both staff members identified the proper steps to take as a first responder and told the auditor that their allegation was reported after the time frame to properly collect evidence. The auditor interviewed four incarcerated individuals who reported sexual abuse during the onsite audit. The four incarcerated individuals told the auditor that they were immediately removed from other incarcerated individuals and taken to see staff in medical. They were all asked to preserve evidence. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.64(b). The facility provided FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response* in the PAQ. In the section entitled *Response*, the agency outlines the responsibilities for staff members to properly respond to allegations of sexual abuse. The procedure states that if the first responder is not a security staff member, request that the alleged victim not take any action that could destroy physical evidence, and then notify security staff. Homestead CI provided the auditor with information showing no allegations first reported by a non-security staff member.

During the onsite phase of the audit, the auditor interviewed two staff members who were first responders to incidents of sexual abuse. Both told the auditor that a non-security staff member would immediately notify a corrections officer. The auditor interviewed 12 random staff members during the onsite audit. All 12 officers understood the proper steps to take upon identifying an incident of sexual abuse.

	<p>When asked, they told the auditor a non-security staff member would ensure the victim was safe then immediately notify a corrections officer, probably a supervisor. The auditor confirmed this information through interviews with a contractor in the kitchen and two staff members in medical services. The auditor reviewed the 21 sexual abuse investigation files from the previous 12 months for Homestead CI and could see the initial steps taken upon first learning of the allegation. The first step was always to separate the victim from the abuser. Based on this analysis, the auditor finds the facility in compliance with this provision.</p>

2. Interviews:
 1. Warden

Findings (by provision):

115.65(a). The agency provided the *Homestead Correctional Institution PREA Coordinated Response* document in the PAQ. The document outlines the responsibilities of the first responder, including the steps to ensure the preservation of evidence, the provision of a sexual abuse awareness brochure for the victim, and the writing of an initial incident report. The next step is the notification of the Shift Supervisor and the Chief of Security, who will ensure the victim is escorted to medical. The document outlines the rest of the Supervisor or Chief’s responsibilities, which includes notification of the Office of the Inspector General (OIG) and the Sexual Assault Response Team (SART). The document then outlines the responsibilities of the OIG Inspector and the SART team’s forensic nurse. The medical team is included in the document. Responsibilities of the mental health staff are also included in the document.

During the onsite phase of the audit, the auditor reviewed the steps of the coordinated response plan with the Warden. The Warden made it clear that having this document in place makes it easy for staff at Homestead CI to promptly respond to incidents of sexual abuse and do it in a way to follow agency procedure and preserve evidence and protect the incarcerated individual victim. Based on this analysis, the auditor finds the facility in compliance with this provision.

In the responses, the Secretary of Corrections stated that the Department does currently have a collective bargaining agreement with the Police Benevolent Association (PBA). The Department is authorized to dismiss or suspend a permanent status career service employee for any cause noted in Chapter 110.227 of the Florida Statutes and Rule 60L-26.005 (2) of the Florida Administrative Code. Such causes include poor performance, negligence, insubordination, inefficiency, or inability to perform assigned duties, violation of law or agency rules, conduct unbecoming a public employee, misconduct, habitual drug use and any conviction of any crime. The Department does not have permanent post assignments, nor does it allow for posts to be “bid” out. Staff members are assigned to posts prior to the commencement of the shift by their shift supervisor. Staff members can be relocated to numerous posts, including posts that do not allow for contact with incarcerated individuals. Because the Department is so large, staff and incarcerated individuals may be relocated to alleviate any problems. 115.67	Agency protection against retaliation
	Auditor Overall Determination: Meets Standard

Auditor Discussion

The following evidence was analyzed in making the compliance determination:

1. Documents: (*Policies, directives, forms, files, records, etc.*)
 1. FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*
 2. Sexual Abuse Investigation files
2. Interviews:
 1. Targeted incarcerated individuals
 2. Agency head
 3. Specialized staff

Findings (by provision):

115.67(a). In the PAQ, the facility provided FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*. This procedure includes requirements for staff to monitor staff and incarcerated individuals for retaliation. The procedure requires staff to foster an environment to preclude sexual abuse, sexual battery, staff sexual misconduct, and sexual harassment, by taking specific actions that include promptly reporting allegations involving retaliation against alleged victims or identified reporters of sexual abuse and sexual harassment. Homestead CI has designated four (4) classification officers as the retaliation monitors.

During the onsite phase of the audit, the auditor interviewed a senior classification officer. She confirmed that she acts as the retaliation monitor at Homestead CI. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.67(b). The auditor was provided written responses to the PREA audit interview questions from the Agency Head. In the responses, the Secretary of Corrections stated that facilities deploy numerous measures including housing changes, program changes, and changes in work assignments. If warranted, an incarcerated individual may be transferred to another Department facility in order to protect him/her from retaliation. All incarcerated individuals who report sexual abuse are monitored for retaliation for at least 90 days. Staff members are required to monitor the incarcerated individual with periodic status checks every 30 days to ensure they are not experiencing any additional problems. Incarcerated individuals are also provided information for the local rape crisis center for emotional support services. Staff members may be afforded the ability to change posts or facilities to protect them from retaliation. They are also monitored for retaliation for at least 90 days following a report of sexual abuse or sexual harassment. During the onsite phase of the audit, the auditor interviewed the Warden. The Warden detailed many ways that Homestead CI would protect incarcerated individuals from retaliation, including housing changes, transferring the incarcerated individual to another institution, and providing the incarcerated individual information about emotional support services. The auditor interviewed the staff member designated to monitor retaliation, a senior classification officer. She told the auditor that she first meets with a sexual abuse

victim shortly after she receives notification of the reported allegation, and she explains her role to monitor their safety. She tells them to make contact if they have a problem and provides them with information about the outside emotional support services. She visits the incarcerated individual periodically, every 30 days, and documents their meeting. This monitoring lasts for 90 days following the report of the allegation. If problems arise, she reports it immediately. She can offer a housing change or locate a new work assignment, if needed. If the situation is extremely poor, the officer can recommend the individual for transfer to another FDC institution if she feels the individual's safety is at risk. The auditor interviewed four incarcerated individuals who had reported sexual abuse. All four incarcerated individuals discussed having someone talk with them about possible retaliation. None of the incarcerated individuals reported problems with retaliation but did talk with a senior classification officer and reported they were having no problems. They could not recall how long that lasted. The auditor found retaliation monitoring reports in the sexual abuse investigation files and could see the periodic checks with notations by a senior classification officer. The auditor also sat with the senior classification officer during one of the required periodic checks on an incarcerated individual who had reported an incident of sexual abuse. The senior classification officer asked several questions to make sure the individual was well and was not experiencing any issues with staff members or other incarcerated individuals. The senior classification officer explained to the auditor that she had also reviewed the management system to see if there had been any records of disciplinary reports or other negative notations. There had been none. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.67(c). In the PAQ, the facility provided FDC Procedure 602.053 - *Prison Rape: Prevention, Detection, and Response*. This procedure includes requirements for staff to monitor staff and incarcerated individuals for retaliation. The procedure states that monitoring shall continue for at least 90 days with at least three contact status checks to occur within the 90-day monitoring period. The agency is to monitor conduct through the review of disciplinary reports, treatment by other staff and incarcerated individuals, and changes in housing, program assignments, work assignments, and demeanor. If the incarcerated individual is transferred during the monitoring period, the receiving institution will continue the monitoring of the incarcerated individual. Also, monitoring may continue past 90 days if the agency feels that there is a continuing need. In the PAQ, the agency had noted no such instances where the retaliation monitor had noted retaliation of an incarcerated individual victim.

During the onsite phase of the audit, the auditor interviewed the Warden, who was asked about steps that would be taken if retaliation of a victim was suspected. The Warden stated the victim would be interviewed and provided the opportunity to tell staff what problems might be occurring. If the victim fails to offer information, the Warden may authorize the transfer of the incarcerated individual for protective purposes. The auditor interviewed the retaliation monitor, a senior classification officer, who stated that she would review incident reports and housing assignments. She would also review medical information to attempt to determine if the

incarcerated individual was having problems that were unreported. If necessary, the incarcerated individual would be separated to provide an opportunity for the incarcerated individual to speak freely to staff and describe the problems that were occurring. The monitoring would continue for 90 days but could extend longer if it appeared to be necessary based on the incarcerated individual's behavior. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.67(d). In the PAQ, the facility provided FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*. This procedure includes requirements for staff to monitor staff and incarcerated individuals for retaliation. The procedure requires periodic checks at the 30-, 60-, and 90-day mark of the 90-day monitoring period.

During the onsite phase of the audit, the auditor interviewed the designated retaliation monitor, a senior classification officer. She stated that her periodic checks are performed every 30 days. She can always see an incarcerated individual more frequently if behavior warrants that, but the procedure requests a visit with the incarcerated individual at 30-day intervals. She continues to monitor every day by reviewing records from her office but will only meet with the incarcerated individual every 30 days. She provided the auditor with copies of current monitoring records, showing the required notes from visits with victims in their housing units. The auditor noted the visit and the incarcerated individual's acknowledgement of their own safety. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.67(e). The auditor was provided written responses to the PREA audit interview questions from the Agency Head. In the responses, the Secretary of Corrections stated that if an individual who cooperates with an investigation expresses fear of retaliation and the individual is an incarcerated individual, the incarcerated individual would be afforded a housing change or a transfer to another Department facility. The incarcerated individual will be subject to 90-day monitoring. If the subject is a staff member, they may be provided the opportunity to change posts or institutions and will also be subject to 90-day monitoring.

During the onsite phase of the audit, the auditor interviewed the Warden, who was asked about steps that would be taken if retaliation of a victim was suspected. The Warden stated the victim would be interviewed and provided the opportunity to tell staff what problems might be occurring. If the victim fails to offer information, the Warden may authorize the transfer of the incarcerated individual for protective purposes. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.67(f). The auditor is not required to audit this provision.

Auditor Discussion

The following evidence was analyzed in making the compliance determination:

- 1. Documents: (*Policies, directives, forms, files, records, etc.*)
 - 1. FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*
 - 2. Sexual abuse investigation files
- 2. Interviews:
 - 1. Specialized staff
 - 2. Random staff
 - 3. Targeted incarcerated individuals
- 3. Site Review Observations:
 - 1. Segregated housing

Findings (by provision):

115.68(a). In the PAQ, the agency provided FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*. The procedure states, “Inmate victims of sexual abuse and/or sexual harassment will not be involuntarily segregated unless an assessment of all other available alternatives has been made and determination has been made that there is no available alternative means of separation from likely abusers.” Homestead CI has indicated in the PAQ that there have been no incarcerated individuals involuntarily segregated following the report of a sexual abuse allegation over the last 12 months.

During the onsite review, the auditor interviewed the Warden about involuntary segregation. Just as he stated about segregation for risk of victimization, he said that Homestead CI has plenty of available space and they do not see the need to utilize confinement to keep incarcerated individuals safe. No incarcerated individuals have been placed in confinement for this reason. If it were to become necessary, Homestead CI would only place someone in segregation until another alternative safe housing became available. The auditor interviewed four incarcerated individuals who had been the victim of sexual abuse. None of the four incarcerated individuals had been placed in segregated housing following their allegation. The auditor also interviewed two staff members that work in segregated housing who confirmed that incarcerated individuals are not placed in segregated housing to keep them safe following the filing of allegations of sexual abuse. Those incarcerated individuals remain in general population. The auditor was able to confirm this by reviewing the information in the sexual abuse investigation files. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.71	Criminal and administrative agency investigations

Auditor Discussion

The following evidence was analyzed in making the compliance determination:

1. Documents: (*Policies, directives, forms, files, records, etc.*)
 1. FDC Procedure 108.015 *Sexual Battery, Sexual Harassment, and Sexual Misconduct Investigations*
 2. FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*
 3. Sexual Abuse Investigation files
2. Interviews
 1. Specialized staff

Findings (by provision):

115.71(a). In the PAQ, the agency provided FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*. The procedure states, “The OIG shall conduct all investigations of sexual abuse, sexual battery, staff sexual misconduct, and sexual harassment...” Also included in the PAQ was FDC Procedure 108.015 *Sexual Battery, Sexual Harassment, and Sexual Misconduct Investigations*. This procedure states that the OIG shall be the primary investigative unit for all sexual misconduct allegations occurring on Department property.

During the onsite phase of the audit, the auditor interviewed an investigator from the Office of the Inspector General (OIG). The investigator confirmed that the OIG investigates all allegations of sexual abuse. The OIG is notified immediately upon the agency learning of the allegation. Immediate steps are taken to preserve evidence upon learning of the allegation and initiating the investigation. The investigation process for third-party allegations is the same, except there is a requirement to ask the alleged victim if they want the OIG to continue to investigate the allegation or to stop the investigation. This step must be completed before the investigation can move forward. The auditor reviewed the 21 sexual abuse investigation files from the last 12 months and was able to confirm the investigative process. The OIG was the investigating agency for each record. The referral to the OIG was completed immediately for each allegation. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.71(b). The agency provided FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response* in the PAQ. The procedure states that investigators must complete specialized training in addition to the general PREA education.

During the onsite phase of the audit, the auditor interviewed an investigator from the OIG. The investigator confirmed that he had taken the required specialized course for investigators. He confirmed that FDC requires all OIG investigators to take the class. The class covers interviewing sexual abuse victims, Miranda and Garrity, sexual abuse evidence collection in confinement, and preparing a case for referral. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.71(c). During the onsite phase of the audit, the auditor interviewed an investigator from the OIG. He explained that every investigation inside the facility is treated like an investigation outside the facility, where each investigation would include everything expected in this provision of the standard. He explained that a review of facility video evidence, telephone calls, and available DNA evidence would be a standard part of every sexual abuse investigation. He stated that the current protocol is to have a SANE nurse from the SART respond to the facility, along with a victim advocate as part of the investigation. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.71(d). During the onsite phase of the audit, the auditor interviewed an investigator from the OIG. He told the auditor that the standard for the OIG is to never perform compelled interviews with subjects. The OIG handles criminal investigations first. Any potential administrative review would remain in a pending status until criminal proceedings are closed and then move forward. Compelled interviews are a last resort and would not be utilized by the OIG. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.71(e). FDC Procedure 108.015 *Sexual Battery, Sexual Harassment, and Sexual Misconduct Investigations* forbids the use of voice stress analysis or polygraph examination in investigations.

During the onsite phase of the audit, the auditor interviewed an investigator from the OIG. The investigator explained that use of a polygraph examination or other truth-telling device is forbidden by FDC policy and used in their investigations. The OIG assesses the credibility of all persons individually regardless of their status as an incarcerated individual. The auditor interviewed four incarcerated individuals who had reported sexual abuse. All four incarcerated individuals told the auditor they had not been asked to take a polygraph examination and were given the opportunity to fully explain their allegation. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.71(f). The auditor was provided FDC Procedure 108.015 *Sexual Battery, Sexual Harassment, and Sexual Misconduct Investigations* in the PAQ. The procedure states, "During investigation into any PREA allegations, Inspectors shall include an effort to determine whether staff actions or failure to act contributed to the abuse and report any violations of rules or procedures." The procedure goes on to state, "An Inspector ... shall complete the investigation in accordance with OIG Procedures and Directives, and complete to appropriate PREA report that includes a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and the investigative facts and findings."

During the onsite phase of the audit, the auditor interviewed an investigator from the OIG. The investigator told the auditor that administrative investigations include a review of all agency procedures to determine if the staff member followed all directives or if someone else failed to properly perform their duties, thus enabling an incarcerated individual or staff member to violate rules and commit an act of sexual misconduct. All administrative investigations are reported in written reports and

submitted to the OIG and the institution Warden.

The auditor reviewed the institution's 21 sexual abuse investigation files from the previous 12 months. The investigation files include the following documents (as needed): Incident report, witness statements, grievance, PREA Investigative Report (DC6-2019), Inspector General Inquiry/Report, Notification of other institution (warden to warden email), Discipline report, Arrest report, Law enforcement notification, special review screens, Acknowledgement of receipt of grievance orientation (DCI-307), Acknowledgement of Receipt of Training on PREA (DC6-134C), iBAS/SRI Results-IM29 screen print, IM70 or IRN 79 printout, iBAS/SRI re-assessment screening (IM29 screen print), Medical/Mental Health forms, housing logs (DC6-208), special housing logs (DC6-233), Holding cell log (DC6-208), SART notification, Sexual Abuse Incident Review (DC6-2076), notification/reporting to incarcerated individual by IG notification, and monitoring for retaliation.

The auditor found generally complete investigative files, with proof of immediate action taken upon first notification, alleged victim interviews, alleged abuser interviews, witness interviews, evidence collection, review of available video, medical care, mental health care, and a classification assessment. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.71(g). During the onsite phase of the audit, the auditor interviewed an investigator from the OIG. The investigator told the auditor that all criminal investigative reports include a full description of the allegation, witness statements, evidence descriptions, and statements from the victim and accused. The investigator would attach the evidence and submit the full report to the OIG and the office of the State Attorney for review. The auditor reviewed the 21 sexual abuse investigation files from the previous 12 months. There were no substantiated allegations of staff sexual abuse, therefore, no referrals for potential criminal charges and criminal prosecution. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.71(h). The auditor interviewed an investigator from the OIG and was assured that any allegations where criminal charges were possible would be referred for prosecution as is required under the standard. The auditor reviewed the 21 sexual abuse investigation files from the previous 12 months. There were no substantiated allegations of staff sexual abuse, therefore, no referrals for potential criminal charges and criminal prosecution. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.71(i). The auditor was provided FDC Procedure 108.015 *Sexual Battery, Sexual Harassment, and Sexual Misconduct Investigations* in the PAQ. The procedure states, "The agency shall retain all administrative and criminal investigative reports, pursuant to a sexual battery investigation, as long as the alleged suspect is incarcerated, supervised, or employed by the agency, plus five years and marked with a stamp or marker..."

During the onsite audit, the auditor was shown the storage of the investigative files in the office of the PREA Auxiliary Officer. The files are marked appropriately and stored

in a locked cabinet. The PREA Auxiliary Officer told the auditor that the files remain in the locked cabinet unless they are being updated or are under review. The agency retains sexual abuse files for at least ten years. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.71(j). The auditor was provided FDC Procedure 108.015 *Sexual Battery, Sexual Harassment, and Sexual Misconduct Investigations* in the PAQ. The procedure states, “The departure of the alleged suspect or victim from the employment or control/supervision of the Department shall not provide a basis for terminating any PREA investigation.”

The auditor interviewed an investigator from the OIG during the onsite phase of the audit. The investigator stated that agency procedure and PREA standards require that OIG investigators continue with sexual abuse investigations even if the alleged abuser or victim has been released from the Department or has left the employ of the Department. The investigation must continue to its end and criminal and administrative proceedings will still result. The investigator was not able to show the auditor an example, as he was not sure it had happened during an investigation. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.71(k). The auditor is not required to audit this provision.

115.71(l). The agency refers all sexual abuse investigations to the OIG. The auditor interviewed the Warden during the onsite phase of the audit, and he stated that all investigations are completed by the OIG, who cooperates fully with the FDC. The auditor interviewed the PREA compliance manager. He stated that all investigations are performed by the OIG. The auditor interviewed an investigator from the OIG. The investigator said that they investigate all sexual abuse and sexual harassment allegations that occur on facility grounds. In the normal course of business, outcomes of those investigations are shared with the institution to complete the administrative investigative file for each allegation. The auditor was provided written responses to the PREA interview questions from the PREA coordinator. In the responses, the PREA coordinator stated all investigations are performed by the OIG and there is full cooperation and coordination between the agencies. Based on this analysis, the auditor finds the facility in compliance with this provision.

Findings (by provision):

115.72(a). The auditor was provided FDC Procedure 108.015 *Sexual Battery, Sexual Harassment, and Sexual Misconduct Investigations* in the PAQ. The procedure states that the agency will utilize a preponderance of evidence as the standard for investigations regarding sexual abuse and sexual harassment.

The auditor interviewed an investigator from the OIG during the onsite phase of the investigation. The investigator told the auditor that the standard of proof for investigations is a preponderance of evidence or lower. The auditor reviewed the institution’s 21 sexual abuse investigation files from the previous 12 months and determined that the facility uses this standard for all investigations. Based on this analysis, the auditor finds the facility in compliance with this provision.

The auditor was provided FDC Procedure 108.015 <i>Sexual Battery, Sexual Harassment, and Sexual Misconduct Investigations</i> in the PAQ. The procedure states, “At the conclusion of any sexual abuse, sexual battery, sexual misconduct, sexual harassment, or voyeurism investigation, the Inspector shall make appropriate notifications and follow-up notifications” to the incarcerated individual victim. Such</p>

notifications include whether the allegation was sustained, partially sustained, not sustained, unfounded, or closed by arrest. Homestead CI provided an example of a completed notification form showing receipt by the incarcerated individual.

Homestead CI indicated there were a total of seven (7) such notifications over the last 12 months, where the reporting individual was still incarcerated at Homestead CI at the time the case was closed.

During the onsite phase of the audit, the auditor interviewed four incarcerated individuals who had reported sexual abuse. None of the four incarcerated individuals had received the notification regarding the outcome of the investigation, apparently because the investigation had yet to be completed. The auditor reviewed the institution's sexual abuse investigation files from the previous 12 months during the onsite phase of the audit. The auditor confirmed during this review that those investigations that were showing as completed all had a signed notification form in the file. The auditor interviewed an investigator during the onsite audit, and he confirmed that there is a requirement to notify the incarcerated individual regarding the outcome of the investigation. The auditor also interviewed the Warden during the audit. The Warden stated that all incarcerated individuals are notified upon the completion of the investigation. They must be notified if the allegation is sustained, not sustained, or unfounded. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.73(b). The institution's sexual abuse and sexual harassment investigations are completed by the OIG. The OIG provides a complete investigative report to the institution following the completion of the investigation. The incarcerated individual is then notified in writing of the outcome of the investigation. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.73(c). The auditor was provided FDC Procedure 108.015 *Sexual Battery, Sexual Harassment, and Sexual Misconduct Investigations* in the PAQ. The procedure requires that incarcerated individuals are notified, unless the allegation was unfounded, when the staff member is no longer assigned to the housing unit, assigned to the institution, employed by the Department, or when the alleged abuser has been indicted on a charge related to sexual abuse or convicted on a charge of sexual abuse.

During the onsite phase of the audit, the auditor interviewed four incarcerated individuals who had filed an allegation of sexual abuse. Two (2) of the allegations were filed against a staff member, and those investigations are still ongoing, so no outcome was provided to the individual. The auditor reviewed the institution's sexual abuse investigation files from the previous 12 months during the onsite phase of the audit. There were no substantiated allegations of sexual abuse. Homestead CI provided a memo stating there were no staff members disciplined, terminated, or reassigned as a result of a PREA investigation, no staff members resigned related to a PREA investigation, and no staff members convicted or indicted for a criminal charge that arose out of a PREA investigation. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.73(d). The auditor was provided FDC Procedure 108.015 *Sexual Battery, Sexual Harassment, and Sexual Misconduct Investigations* in the PAQ. The procedure includes a provision that requires notification to the victim when the agency learns that the alleged abuser has been indicted on a charge related to sexual abuse or when the alleged abuser has been convicted on a charge of sexual abuse.

During the onsite phase of the audit, the auditor interviewed four incarcerated individuals who had filed an allegation of sexual abuse. Two (2) of the allegations were filed against a staff member, and those investigations are still ongoing, so no outcome was provided to the individual. The auditor reviewed the institution’s sexual abuse investigation files from the previous 12 months. There were no substantiated allegations of sexual abuse. The written notification of the outcome of the investigation was provided to the incarcerated individual victim, which was in the sexual abuse investigation file. Homestead CI provided a memo stating there were no incarcerated individuals convicted or indicted for a criminal charge that arose out of a PREA investigation. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.73(e). In the PAQ, the auditor was provided a copy of FDC Form DC6-2080 *Inmate Notification (PREA)*. This form is utilized to document all notifications to the incarcerated individual victim regarding the status of the outcome of the investigation and the notifications regarding the alleged abuser. Homestead CI provided the auditor with several copies of a completed notification form in the PAQ.

During the onsite phase of the audit, the auditor reviewed the institution’s sexual abuse investigation files from the previous 12 months. The auditor located notifications of the outcome of the investigation, but no additional notifications regarding the alleged abuser criminal status, because there had been no substantiated allegations against a staff member. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.73(f). The auditor is not required to audit this provision.

2. Interviews:
 1. Specialized interviews

Findings (by provision):

115.76(a). In the PAQ, the facility provided *FDC Rule 33-208.003 Range of Disciplinary Actions*. This procedure outlines the agency's range of discipline expected for staff members following the determination that a staff member has violated an agency *Rule of Conduct*. As committing an offense of sexual abuse, sexual assault, or sexual harassment, would be a violation of the agency *Rules of Conduct*, the *Range of Disciplinary Actions* shows this violation with a potential discipline of suspension, demotion, or dismissal, meeting the standard in this provision.

The auditor reviewed the institution's 21 sexual abuse investigation files from the previous 12 months during the onsite audit. There were no substantiated allegations against a staff member. The auditor confirmed through conversations with the PREA compliance manager that there were no substantiated allegations of staff sexual abuse during the past year at Homestead CI. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.76(b). In the PAQ, the facility provided *FDC Rule 33-208.003 Range of Disciplinary Actions*. This procedure outlines the agency's range of discipline expected for staff members following the determination that a staff member has violated an agency *Rule of Conduct*. As committing an offense of sexual abuse, sexual assault, or sexual harassment, would be a violation of the agency *Rules of Conduct*, the *Range of Disciplinary Actions* shows this violation with a potential discipline of suspension, demotion, or dismissal, meeting the standard in this provision.

The auditor reviewed the institution's 21 sexual abuse investigation files from the previous 12 months during the onsite audit. There were no substantiated allegations against a staff member. The auditor confirmed through conversations with the PREA compliance manager that there were no substantiated allegations of staff sexual abuse during the past year at Homestead CI. As there were no substantiated allegations, there were no terminations of staff due to sexual abuse or sexual harassment and, therefore, no additional information for the auditor to review in reference to this provision. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.76(c). In the PAQ, the facility provided *FDC Rule 33-208.003 Range of Disciplinary Actions*. This procedure outlines the agency's range of discipline expected for staff members following the determination that a staff member has violated an agency *Rule of Conduct*. The procedure states that the severity of penalties may vary depending upon the frequency and nature of a particular offense and the circumstances surrounding each case.

The auditor reviewed the institution's 21 sexual abuse investigation files from the

previous 12 months during the onsite audit. There were no substantiated allegations against a staff member and no notations of discipline for any staff members. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.76(d). Although there is no clear mention of this in the agency procedures, the requirement for the presumption of dismissal is sufficient to meet the provision.

During the onsite phase of the audit, the auditor interviewed a human resources staff member. Part of the discussion included the agency’s requirement to report sexual abuse violations by corrections officers to the Florida Department of Law Enforcement (FDLE), the licensing body for the State of Florida. The Department would report all knowledge of an officer’s involvement in a sexual abuse investigation, whether the officer was terminated or resigned prior to the completion of that investigation. In the PAQ, the institution indicated there were no staff members at Homestead CI reported to the FDLE over the previous 12 months.

The auditor reviewed the institution’s 21 sexual abuse investigation files from the previous 12 months during the onsite audit. There were no substantiated allegations against a staff member. The auditor was unable to review additional evidence to confirm this provision. Based on this analysis, the auditor finds the facility in compliance with this provision.

Auditor Discussion

The following evidence was analyzed in making the compliance determination:

1. Documents: (*Policies, directives, forms, files, records, etc.*)
 1. FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*
 2. FDC Procedure 205.002 *Contract Management*
 3. Sexual Abuse Investigation files
2. Interviews:
 1. PREA coordinator
 2. Specialized staff

Findings (by provision):

115.77(a). In the PAQ, the agency provided FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*. The procedure states, “Contractors or volunteers who engage in sexual abuse, sexual battery, or sexual harassment and have been found guilty will be disciplined up to and including termination of contract and/or prohibition from working or volunteering for the Department. Additionally, any

contractor or volunteer who engages in sexual abuse and sexual battery will be reported to law enforcement, unless determined by the OIG investigation not to be criminal, and to any relevant licensing bodies.” The agency also provided the auditor with FDC Procedure 205.002 *Contract Management*. This procedure outlines the standards for the Department’s activities with its contractors. Under the *Contract Termination* section, the termination for cause examples includes item number four, the contractor fails to comply with the Department’s PREA policies and procedures and/or Federal Rule 28 D.F.R. Part 115. The agency stated that there were no such terminations over the last 12 months prior to the audit.

During the onsite phase of the audit, the auditor reviewed the institution’s 21 sexual abuse investigation files from the previous 12 months and did not find any allegations made against a volunteer or contractor. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.77(b). The agency stated in the PAQ that there were no contractors or volunteers involved in sexual abuse cases over the last 12 months prior to the audit. There was no additional evidence available for the auditor to review for this provision. The auditor interviewed the Warden during the onsite phase of the audit. The Warden stated that Homestead CI would not consider remedial measures and would rather terminate the contract or remove a volunteer from the approved access list. There is no need to take a chance with allowing someone to come back to the compound and endanger the safety of the incarcerated individual population. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.78(a). In the PAQ, the agency provided FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*. The procedure outlines disciplinary action for incarcerated individuals and states, “Inmate(s) who have been found guilty of sexual abuse, sexual battery, or sexual harassment, through the course of either internal or external hearings will be processed in accordance with “*Disciplinary Confinement,*” Rule 33-602.222, F.A.C., unless otherwise ordered through judicial or administrative process.” The agency stated in the PAQ that there were no incarcerated individuals disciplined for offenses of sexual abuse over the last 12 months prior to the audit.

During the onsite phase of the audit, the auditor reviewed the sexual abuse investigation files from the previous 12 months. The auditor reviewed 21 investigations from the previous 12 months prior to the audit. There were no investigations that led to administrative disciplinary sanctions for an incarcerated individual, as there were no cases where the allegation was substantiated against the accused incarcerated individual. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.78(b). In the PAQ, the auditor was provided *FDC Rule 33-601.314 Rules of Prohibited Conduct and Penalties for Infractions*. This procedure outlines the established penalties for the indicated offenses in the *Code of Conduct*. The list shows a required disciplinary confinement and loss of gain time for an infraction of sexual battery or attempted sexual battery or lewd or lascivious exhibition. If an incarcerated individual is found guilty of these offenses, they can expect this penalty, indicating that the penalty would be commensurate with the nature of the offense for each incarcerated individual.

During the onsite phase of the audit, the auditor interviewed the Warden, who confirmed that incarcerated individual discipline is based upon the penalties outlined in the procedures. The penalty assigned should be consistent with the standard in the procedure, which would make it consistent for all incarcerated individuals. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.78(c). In the PAQ, the agency provided FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*. The procedure outlines disciplinary action for incarcerated individuals and states, “Inmate(s) who have been found guilty of sexual abuse, sexual battery, or sexual harassment, through the course of either internal or external hearings will be processed in accordance with “*Disciplinary Confinement,*” ...” The procedure goes on to state that all incarcerated individuals who have been found guilty of sexual abuse or sexual battery will be referred to close management and/or issued a disciplinary report. All close management and disciplinary report hearings will take into consideration whether their mental disabilities or mental illness contributed to the abuser or perpetrator’s behavior.

During the onsite phase of the audit, the auditor interviewed the Warden, who confirmed that incarcerated individual discipline is based upon the penalties outlined in the procedures. The penalty assigned should be consistent with the standard in the procedure, which would make it consistent for all incarcerated individuals. It is possible for staff to take into consideration an incarcerated individual’s mental health

status when considering penalties for incarcerated individual infractions. The Department does not offer sexual abuse therapy as an alternative to discipline. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.78(d). In the PAQ, the agency provided FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*. The procedure outlines disciplinary action for incarcerated individuals and states, “Inmate(s) who have been found guilty of sexual abuse, sexual battery, or sexual harassment, through the course of either internal or external hearings will be processed in accordance with “*Disciplinary Confinement*,” ...” The procedure goes on to state that all incarcerated individuals who have been found guilty of sexual abuse or sexual battery will be referred to close management and/or issued a disciplinary report. All close management and disciplinary report hearings will take into consideration whether their mental disabilities or mental illness contributed to the abuser or perpetrator’s behavior.

During the onsite phase of the audit, the auditor interviewed two staff members of the medical and mental health staff. There is no specific sexual abuse therapy program available for incarcerated individuals. The incarcerated individual discipline may consider the incarcerated individual’s mental health, but the mental health staff does not provide specific therapy focused on the prevention of future acts of sexual abuse. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.78(e). In the PAQ, the auditor was provided *FDC Rule 33-601.314 Rules of Prohibited Conduct and Penalties for Infractions*. This procedure outlines the established penalties for the indicated offenses in the *Code of Conduct*. The list of offenses includes a violation for lewd or lascivious exhibition by the incarcerated individual and for establishing a personal relationship with a staff member or a volunteer.

The agency did not provide the auditor with any additional information relative to this provision. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.78(f). The agency has provided the auditor with FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*. In the *Discipline* section, the procedure states that when it is determined that an incarcerated individual has filed a PREA report in bad faith, for example knowingly filing a false report, the incarcerated individual may be subject to discipline. In this case, discipline is appropriate and would not violate this provision.

The auditor reviewed the 21 sexual abuse investigation files from the previous 12 months during the onsite audit. The auditor did not find any incidents of incarcerated individuals receiving discipline due to the finding of false allegations. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.78(g). In the PAQ, the auditor was provided *FDC Rule 33-601.314 Rules of Prohibited Conduct and Penalties for Infractions*. This procedure outlines the established penalties for the indicated offenses in the *Code of Conduct*. The agency includes sex acts or unauthorized physical contact involving incarcerated individuals

as a prohibited rule of conduct. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.81 Medical and mental health screenings; history of sexual abuse

Auditor Overall Determination: Meets Standard

Auditor Discussion

The following evidence was analyzed in making the compliance determination:

1. Documents: (*Policies, directives, forms, files, records, etc.*)
 1. FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*
 2. *Intake PREA Screening Checklist*
 3. *Classification PREA Screening Checklist*
 4. *Mental Health Initial Assessment*
2. Interviews:
 1. Specialized staff
 2. Targeted incarcerated individuals
3. Site Review Observations:
 1. Computer systems
 2. Medical services

Findings (by provision):

115.81(a). The agency provided FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response* in the PAQ. The procedure states, “If results of an SRI assessment or medical assessment indicate that an inmate has experienced prior sexual victimization, or has previously perpetrated sexual abuse, whether it occurred in an institutional setting or in the community, the inmate shall be offered a follow-up meeting with a mental health practitioner within 14 days of the screening.” In the PAQ, the institution indicated there were a total of 18 incarcerated individuals who reported prior sexual abuse during the intake screening over the previous 12 months.

During the onsite phase of the audit, the auditor interviewed three (3) incarcerated individuals who had reported prior sexual victimization on the risk screening. All three individuals indicated they were seen by a mental health staff member within the first week they were incarcerated at Homestead CI. Records provided by the institution clearly show both individuals receiving both a medical and mental health intake screening within the first week of their incarceration. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.81(b). The agency provided FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response* in the PAQ. The procedure states, “If results of an SRI

assessment or medical assessment indicate that an inmate has experienced prior sexual victimization, or has previously perpetrated sexual abuse, whether it occurred in an institutional setting or in the community, the inmate shall be offered a follow-up meeting with a mental health practitioner within 14 days of the screening.”

During the onsite phase of the audit, the auditor interviewed a senior classification officer that performs the risk screening. She told the auditor that all incarcerated individuals are provided the opportunity to see medical and mental health, regardless of their response to the risk screening questions. The first intake with mental health typically occurs within 14 days of intake at Homestead CI. The auditor interviewed two staff members from medical, a registered nurse and a psychologist, and both stated that intake screenings are performed by the seventh day of the individuals’ intake to the institution. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.81(c). This provision is for jails and does not apply to Homestead CI. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.81(d). The agency provided FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response* in the PAQ. The procedure states that information relating to sexual victimization or abuse that occurred in an institutional setting is strictly limited to medical and mental health practitioners and other staff necessary to properly make treatment plans, security, and management decisions, including for housing, work, education, and work assignments.

During the onsite phase of the audit, the auditor talked with several staff members while performing the site review. Staff members were asked about the screening of incarcerated individuals and how to access the screening information in the computer. The auditor was told they were unable to access that information in the computer. The auditor asked three officers to access the computer and show him the screening information and they were unable to do so. The auditor was assured by the CSC and the PREA compliance manager that access to the screening tool’s data was restricted to staff that required access to the information. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.81(e). The agency provided FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response* in the PAQ. The procedure requires that medical and mental health staff obtain informed consent from incarcerated individuals prior to reporting information about prior sexual victimization unless the incarcerated individual is under the age of 18.

During the onsite phase of the audit, the auditor interviewed two staff members from the medical department. Both told the auditor that informed consent was a requirement before they could disclose information to security staff. For incarcerated individuals under the age of 18 this was not a requirement. Based on this analysis, the auditor finds the facility in compliance with this provision.

In the PAQ, the auditor was provided FDC Procedure 108.015 <i>Sexual Battery, Sexual Harassment, and Sexual Misconduct Investigations</i>. The procedure requires that correctional personnel responding to an allegation of sexual abuse or sexual harassment take all reasonable actions to ensure the safety of all persons and control and detain any suspects. Correctional personnel shall ensure all victims and other injured persons are provided with appropriate first aid and appropriate emergency medical services.</p> <p>During the onsite phase of the audit, the auditor interviewed two staff members from the medical department. A registered nurse and a psychologist confirmed that any incarcerated individual who was the victim of sexual abuse would be immediately brought to the medical department as part of the coordinated response plan to an allegation of sexual abuse. The first step taken would be to evaluate the incarcerated individual for injuries and the urgent need for medical care. Special care would be taken to ensure that any evidence would be preserved. This evaluation is done immediately and is based on the medical professional's credentials. A medical professional is on duty 24 hours a day at Homestead CI and there would be no waiting for care from a medical professional. The auditor also interviewed four incarcerated individuals who reported sexual abuse. All four incarcerated individuals told the auditor they were taken to medical immediately after reporting the incident and were seen by medical. They all reported no injuries, although they were evaluated immediately. They told the auditor that an appointment was also scheduled with mental health. Based on this analysis, the auditor finds the facility in compliance with this provision.</p> <p>115.82(b). The auditor interviewed two staff members who were first responders to allegations of sexual abuse during the onsite phase of the audit. Both understood the</p>

need to provide the incarcerated individual with immediate access to medical and mental health. They told the auditor that medical staff are always available and there is no need for security staff to make other arrangements. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.82(c). FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response* was provided to the auditor in the PAQ. The procedure states “Inmate victims of sexual abuse, sexual battery, or staff sexual misconduct while incarcerated will be offered timely information about and timely access to emergency contraception and sexually transmitted infections prophylaxis, in accordance with professionally accepted standards of care, where medically appropriate.”

During the onsite phase of the audit, the auditor interviewed two staff members from the medical department. A registered nurse and a psychologist told the auditor that these services would always be provided to the victim. Since Homestead CI houses female incarcerated individuals, pregnancy services must be provided. Following the report of a sexual abuse allegation, the incarcerated individual would receive testing for pregnancy and sexually transmitted illnesses, depending upon the report and allegation of sexual activity. The treatment plan would be provided by the SART nurse following the forensic examination and approved by the Centurion doctor. The auditor interviewed four incarcerated individuals who had reported sexual abuse.

None of the four incarcerated individuals reported physical contact that required follow-up testing for STIs, pregnancy, or the need for prophylactic medications, although there was one (1) individual at the institution who had received a forensic examination over the prior 12 months. That individual was tested for STIs and was provided prophylactic medications. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.82(d). FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response* was provided to the auditor in the PAQ. The procedure states, “Treatment services shall be provided to the victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigations arising out of the incident.” The auditor was also provided FDC Procedure 401.010 *Co-Payment Requirement* in the PAQ. This procedure states, “Waiver of co-payment may be granted if the health care visit: 10. Is a Prison Rape Elimination Act (PREA) incident involving sexual abuse or sexual harassment.” Based on this analysis, the auditor finds the facility in compliance with this provision.

 2. Targeted incarcerated individuals

Findings (by provision):

115.83(a). FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response* was provided to the auditor in the PAQ. The procedure states, “As appropriate, medical and mental health evaluation and treatment shall be offered to all inmates who have been sexually victimized in any Department or contracted facility and will be consistent with the community level of care. The evaluation and treatment of such victims shall include as appropriate, follow-up services, and, when necessary, referrals for continued care following a transfer to, or placement in, another facility, or a release from custody.” The auditor was also provided Health Services Bulletin 15.03.36 – *Post Sexual Battery Medical Action* in the PAQ. The bulletin states, “Complete and accurate documentation on the “*Alleged Sexual Battery Protocol*,” DC4-683M, used in instances of alleged sexual battery and not in instances of sexual misconduct or sexual harassment, shall reflect that the appropriate steps outlined in Procedure Manual 602.053 have been completed.” Based on this analysis, the auditor finds the facility in compliance with this provision.

115.83(b). FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response* was provided to the auditor in the PAQ. The procedure states, “As appropriate, medical and mental health evaluation and treatment shall be offered to all inmates who have been sexually victimized in any Department or contracted facility and will be consistent with the community level of care. The evaluation and treatment of such victims shall include as appropriate, follow-up services, and, when necessary, referrals for continued care following a transfer to, or placement in, another facility, or a release from custody.”

The auditor interviewed two staff members from the medical department during the onsite phase of the audit. A registered nurse and a psychologist confirmed for the auditor that the institution provides a full treatment plan for all incarcerated individuals, especially for incarcerated individuals who have been sexually abused. If the SART team responds, a follow-up plan for testing and prophylactic medications will be provided to the institution. Staff will also provide information if the incarcerated individual is transferred or released. The auditor also interviewed four incarcerated individuals who reported sexual abuse. All four incarcerated individuals

reported receiving care from medical and mental health. Although none of the four required testing and prophylactic medications due to the level of physical contact, the auditor viewed the records of one (1) individual at the institution who had suspected physical contact that required a forensic examination. The medical records indicated STI testing, prophylactic medications, and physician-ordered follow-up evaluations. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.83(c). The auditor interviewed two staff members from the medical department, a registered nurse and a psychologist, during the onsite phase of the audit. They confirmed for the auditor that the institution provides a full treatment plan for all incarcerated individuals, especially for incarcerated individuals who have been sexually abused. The care that they provide is always consistent with care that would be provided outside the institution. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.83(d). The auditor was provided Health Services Bulletin 15.03.36 - *Post Sexual Battery Medical Action* in the PAQ. The bulletin states, "Serum Pregnancy testing will be scheduled at the appropriate interval for all female victims capable of becoming pregnant (i.e. pre-menopausal, non-pregnant, childbearing age, uterus still intact). Emergency Contraception (e.g. Plan B One Step) shall be kept in stock or readily available at all female institutions/facilities and shall be offered to all female victims of reproductive age per instructions on medication insert."

The auditor interviewed four incarcerated individuals who reported sexual abuse during the onsite audit. All four incarcerated individuals reported receiving care from medical and mental health, although none of the four required testing and prophylactic medications due to the level of physical contact. The auditor was unable to gather additional information related to this provision. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.83(e). The auditor was provided Health Services Bulletin 15.03.36 - *Post Sexual Battery Medical Action* in the PAQ. The bulletin states, "Serum Pregnancy testing will be scheduled at the appropriate interval for all female victims capable of becoming pregnant (i.e. pre-menopausal, non-pregnant, childbearing age, uterus still intact). Emergency Contraception (e.g. Plan B One Step) shall be kept in stock or readily available at all female institutions/facilities and shall be offered to all female victims of reproductive age per instructions on medication insert."

The auditor interviewed four incarcerated individuals who reported sexual abuse during the onsite audit. All four incarcerated individuals reported receiving care from medical and mental health, although none of the four required testing and prophylactic medications due to the level of physical contact. The auditor was unable to gather additional information related to this provision. Based on this analysis, the auditor finds the facility in compliance with this provision. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.83(f). FDC Procedure 602.053 - *Prison Rape: Prevention, Detection, and Response* was provided to the auditor in the PAQ. The procedure states, "Inmate victims of sexual abuse, sexual battery, or staff sexual misconduct while incarcerated

will be offered timely information about and timely access to emergency contraception and sexually transmitted infections prophylaxis, in accordance with professionally accepted standards of care, where medically appropriate.”

The auditor interviewed four incarcerated individuals who reported sexual abuse during the onsite phase of the audit. All four incarcerated individuals reported receiving care from medical and mental health. Although none of the four required testing and prophylactic medications due to the level of physical contact, the auditor viewed the records of one (1) individual at the institution who had suspected physical contact that required a forensic examination. The medical records indicated STI testing, prophylactic medications, and physician-ordered follow-up evaluations. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.83(g). FDC Procedure 602.053 - *Prison Rape: Prevention, Detection, and Response* was provided to the auditor in the PAQ. The procedure states, “Treatment services shall be provided to the victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigations arising out of the incident.” The auditor was also provided FDC Procedure 401.010 *Co-Payment Requirement* in the PAQ. This procedure states, “Waiver of co-payment may be granted if the health care visit: 10. Is a Prison Rape Elimination Act (PREA) incident involving sexual abuse or sexual harassment.”

The auditor interviewed four incarcerated individuals who reported sexual abuse during the onsite phase of the audit. All four incarcerated individuals reported receiving care from medical and mental health. All four incarcerated individuals told the auditor that services provided to them after the incident were at no cost. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.83(h). FDC Procedure 602.053 - *Prison Rape: Prevention, Detection, and Response* was provided to the auditor in the PAQ. The procedure states that a mental health evaluation will be offered to any identified incarcerated individual-on-incarcerated individual abusers within 60 days of learning of such abuse history. The abuser will then be offered treatment as appropriate.

The auditor interviewed two staff members from the medical department, a registered nurse and a psychologist, during the onsite phase of the audit. Mental health evaluations are provided for all sexual abusers as soon as possible after receiving notification of a sexual abuse allegation. Homestead CI has a full mental health staff and can put together a treatment plan for the incarcerated individual. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.86	Sexual abuse incident reviews
	Auditor Overall Determination: Meets Standard
	Auditor Discussion

The following evidence was analyzed in making the compliance determination:

1. Documents: (*Policies, directives, forms, files, records, etc.*)
 1. FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*
 2. FDC Form DC6-2076 *Sexual Abuse Incident Review/Facility Investigation Summary*
 3. Sexual abuse investigation files
2. Interviews:
 1. Specialized staff
 2. Incident review team

Findings (by provision):

115.86(a). In the PAQ, the facility provided FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*. In the *Sexual Abuse Incident Review* section, the procedure provides for a sexual abuse incident review to be conducted within 30 days of the conclusion of the investigation by completing the *Sexual Abuse Incident Review/Facility Investigation Summary* (Form DC6-2076). The procedure states that the review team shall consist of the Assistant Warden, Chief of Security, and Classification Supervisor.

The auditor reviewed the institution's 21 sexual abuse investigation files from the previous 12 months during the onsite audit. There are six (6) completed sexual abuse investigations with an outcome of unfounded. These files did not have the completed *Sexual Abuse Incident Review/Facility Investigation Summary* (Form DC6-2076), as it is not required for those investigations determined to be unfounded. All other sexual abuse investigations are still ongoing, and the incident review would not yet be required. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.86(b). In the PAQ, the facility provided FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*. In the *Sexual Abuse Incident Review* section, the procedure provides for a sexual abuse incident review to be conducted within 30 days of the conclusion of the investigation by completing the *Sexual Abuse Incident Review/Facility Investigation Summary* (Form DC6-2076). The procedure states that the review team shall consist of the Assistant Warden, Chief of Security, and Classification Supervisor.

The auditor reviewed the institution's 21 sexual abuse investigation files from the previous 12 months during the onsite audit. There are six (6) completed sexual abuse investigations with an outcome of unfounded. These files did not have the completed *Sexual Abuse Incident Review/Facility Investigation Summary* (Form DC6-2076), as it is not required for those investigations determined to be unfounded. All other sexual abuse investigations are still ongoing, and the incident review would not yet be required. As there are no completed incident reviews available for the auditor to review, there is no additional information for the auditor for this provision.

Based on this analysis, the auditor finds the facility in compliance with this provision.

115.86(c). In the PAQ, the facility provided FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response*. The procedure states that the review team shall consist of the Assistant Warden, Chief of Security, and Classification Supervisor. The team will also obtain input via reports from line supervisors, investigators, and medical or mental health practitioners.

During the onsite phase of the audit, the auditor interviewed the Warden. The Warden told the auditor that this incident review team always includes the PREA compliance manager, the Chief of Security, and at least one Classification Supervisor. The Warden and other leadership team members will often join in the incident review meetings. The committee always seeks input from investigators and often seeks input from line staff and medical and mental health staff. The auditor reviewed the institution's 21 sexual abuse investigation files from the previous 12 months. There are six (6) completed sexual abuse investigations with an outcome of unfounded. These files did not have the completed *Sexual Abuse Incident Review/Facility Investigation Summary* (Form DC6-2076), as it is not required for those investigations determined to be unfounded. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.86(d). FDC Form DC6-2076 *Sexual Abuse Incident Review/Facility Investigation* was provided to the auditor in the PAQ. This form is utilized by FDC to document the incident review meeting information. The form documents the incident review team's consideration of: 1. Whether the allegation indicates a need to change policy or practice to better prevent, detect, or respond to sexual abuse; 2. Whether the allegation was motivated by race, ethnicity, gender identity, lesbian, gay, transgender, or intersex identification, gang affiliation, or other group dynamics; 3. Examine the area in the facility for physical barriers which may enable abuse; 4. Assess adequacy of staffing levels during different shifts; 5. Assess if monitoring technology should be adjusted to supplement supervision by staff; and 6. Prepare a report of the findings by the review team. Homestead CI also prepares a monthly report of sexual abuse reports and allegations for the Warden's review.

During the onsite phase of the audit, the auditor interviewed the Colonel, who participates in the sexual abuse incident reviews. She told the auditor that each incident review includes a review of all the items listed in this provision. The team would evaluate the incident and consider the victim and the perpetrator and their identity, race, and dynamics. To date, over the last year, there were no indications of any group dynamics that had any bearing on a sexual abuse incident. She made it clear that these incident reviews are important for the institution to not just say that sexual safety is important, but to show to staff and all of administration that is important. If they identify an action that must be taken following the review, the action must be taken immediately. The auditor also interviewed the Warden about the sexual abuse incident reviews. The Warden agreed that the reviews are important to providing a safe environment for the incarcerated individuals. The information from the incident reviews is utilized to determine if changes need to be made to our physical plant, surveillance systems, policy and procedure, or any other

	<p>change that we feel would improve the safety of our incarcerated individual population and prevent future sexual abuse. Based on this analysis, the auditor finds the facility in compliance with this provision.</p> <p>115.86(e). Although the auditor was not provided with any documentation for this provision, the information from the auditor’s interviews with staff made it clear that recommendations on incident reviews would be immediately put into practice and corrected. Based on this analysis, the auditor finds the facility in compliance with this provision.</p>

115.87(c). The agency provided the auditor with FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response* in the PAQ. The procedure includes a section entitled *Data Collection and Analysis*. The procedure states, “The PREA Coordinator will be responsible for the compilation and reporting of data related to PREA incidents as defined herein, including the data necessary to complete the PREA survey administered by the Federal Bureau of Justice Statistics...” The reports contain the data necessary to complete the Bureau of Justice Statistics form *SSV-2 Survey of Sexual Victimization*. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.87(d). The agency provided the auditor with FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response* in the PAQ. The procedure includes a section entitled *Data Collection and Analysis*. The procedure states, “The PREA Coordinator will be responsible for the compilation and reporting of data related to PREA incidents as defined herein, including the data necessary to complete the PREA survey administered by the Federal Bureau of Justice Statistics...” The procedure requires that the agency collect data from all available incident reports and documents, investigation files and sexual abuse incident reviews. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.87(e). The agency provided the auditor with FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response* in the PAQ. The procedure includes a section entitled *Data Collection and Analysis*. The procedure states, “The PREA Coordinator will be responsible for the compilation and reporting of data related to PREA incidents as defined herein, including the data necessary to complete the PREA survey administered by the Federal Bureau of Justice Statistics...” The agency does not contract for the confinement of incarcerated individuals, so this provision does not apply. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.87(f). The agency completes the *Survey of Sexual Violence (SSV)* when the request is received from the Department of Justice. In the PAQ, the agency provided a copy of the *2018 Florida Department of Corrections SSV-2*. Based on this analysis, the auditor finds the facility in compliance with this provision.

Findings (by provision):

115.88(a). The agency provided the auditor with FDC Procedure 602.053 – *Prison Rape: Prevention, Detection, and Response* in the PAQ. The procedure includes a section entitled *Data Collection and Analysis*. The procedure states that data collected will be utilized to improve the effectiveness of the Department’s efforts toward sexual abuse prevention, detection, and response policies, practices, and training, including identifying problem areas, taking corrective action, and the preparation of an annual report that includes a comparison of the current year’s data and corrective actions with those from prior year. The agency provided the auditor with the *Homestead Correctional Institution - 2022 PREA Facility Corrective Action Plan* in the PAQ. The Plan was complete and included a comparison of the 2021 data with the 2022 data.

The auditor was provided written responses to the PREA audit interview questions from the Agency Head. In those responses, the Secretary of Corrections explained that the sexual abuse data is collected annually and utilized to complete the *Survey of Sexual Victimization*. The data is collected from all facilities that house Department incarcerated individuals. The data is reviewed by the PREA Coordinator who completes a report of the findings and any potential corrective action. The information is utilized to detect any deficiencies or areas of concern and is utilized to promote better policy and practice. The auditor was provided written responses to the PREA audit interview questions from the PREA coordinator. The PREA coordinator also confirmed the annual data collection. She stated that it was secured annually at the statewide level. Corrective action is taken based on the issues noted and reported on an annual statewide corrective action plan. The plan is posted on the Department’s public website. All issues are reviewed, and actions are taken for prevention of future incidents. The auditor interviewed the PREA compliance manager during the onsite audit, who confirmed the aggregate data review annually. He stated that this might provide information that can be utilized to alter staffing or provide changes to training and education. Based on this analysis, the auditor finds the facility in compliance with this provision.

115.88(b). The auditor reviewed the *FDC 2022 Prison Rape Elimination Act (PREA) Corrective Action Plan and Annual Report*, which was provided in the PAQ. The auditor confirmed that the report contains information related to this provision, including a comparison of the current year’s sexual abuse incident data and corrective actions with those from the prior year. Based on this analysis, the auditor

	<p>finds the facility in compliance with this provision.</p> <p>115.88(c). The auditor was provided written responses to the PREA audit interview questions from the Agency Head. In those responses the Secretary of Corrections stated that he is responsible for reviewing and approving the annual PREA report. The annual report is then posted to the agency website. The auditor found the annual corrective action plan for 2015 through 2022 on the agency website. Based on this analysis, the auditor finds the facility in compliance with this provision.</p> <p>115.88(d). The auditor was provided written responses to the PREA audit interview questions from the PREA coordinator. In those responses, the PREA coordinator stated that the annual report is posted without redacted information. The annual report is written without data that would require redaction. The auditor reviewed reports posted to the website and noted no redacted information or personally identifiable information in the reports. Based on this analysis, the auditor finds the facility in compliance with this provision.</p>

115.43 (a)	Protective Custody	
	Does the facility always refrain from placing inmates at high risk for sexual victimization in involuntary segregated housing unless an assessment of all available alternatives has been made, and a determination has been made that there is no available alternative means of separation from likely abusers?	yes
	If a facility cannot conduct such an assessment immediately, does the facility hold the inmate in involuntary segregated housing for less than 24 hours while completing the assessment?	yes
115.43 (b)	Protective Custody	
	Do inmates who are placed in segregated housing because they are at high risk of sexual victimization have access to: Programs to the extent possible?	yes
	Do inmates who are placed in segregated housing because they are at high risk of sexual victimization have access to: Privileges to the extent possible?	yes
	Do inmates who are placed in segregated housing because they are at high risk of sexual victimization have access to: Education to the extent possible?	yes
	Do inmates who are placed in segregated housing because they are at high risk of sexual victimization have access to: Work opportunities to the extent possible?	yes
	If the facility restricts any access to programs, privileges, education, or work opportunities, does the facility document the opportunities that have been limited? (N/A if the facility never restricts access to programs, privileges, education, or work opportunities.)	yes
	If the facility restricts access to programs, privileges, education, or work opportunities, does the facility document the duration of the limitation? (N/A if the facility never restricts access to programs, privileges, education, or work opportunities.)	yes
	If the facility restricts access to programs, privileges, education, or work opportunities, does the facility document the reasons for such limitations? (N/A if the facility never restricts access to programs, privileges, education, or work opportunities.)	yes
115.43 (c)	Protective Custody	

	Does the facility assign inmates at high risk of sexual victimization to involuntary segregated housing only until an alternative means of separation from likely abusers can be arranged?	yes
	Does such an assignment not ordinarily exceed a period of 30 days?	yes
115.43 (d) Protective Custody		
	If an involuntary segregated housing assignment is made pursuant to paragraph (a) of this section, does the facility clearly document: The basis for the facility's concern for the inmate's safety?	yes
	If an involuntary segregated housing assignment is made pursuant to paragraph (a) of this section, does the facility clearly document: The reason why no alternative means of separation can be arranged?	yes
115.43 (e) Protective Custody		
	In the case of each inmate who is placed in involuntary segregation because he/she is at high risk of sexual victimization, does the facility afford a review to determine whether there is a continuing need for separation from the general population EVERY 30 DAYS?	yes
115.51 (a) Inmate reporting		
	Does the agency provide multiple internal ways for inmates to privately report: Sexual abuse and sexual harassment?	yes
	Does the agency provide multiple internal ways for inmates to privately report: Retaliation by other inmates or staff for reporting sexual abuse and sexual harassment?	yes

	abuse or sexual harassment or retaliation?	
115.61 (b)	Staff and agency reporting duties	
	Apart from reporting to designated supervisors or officials, does staff always refrain from revealing any information related to a sexual abuse report to anyone other than to the extent necessary, as specified in agency policy, to make treatment, investigation, and other security and management decisions?	yes
115.61 (c)	Staff and agency reporting duties	
	Unless otherwise precluded by Federal, State, or local law, are medical and mental health practitioners required to report sexual abuse pursuant to paragraph (a) of this section?	yes
	Are medical and mental health practitioners required to inform inmates of the practitioner's duty to report, and the limitations of confidentiality, at the initiation of services?	yes
115.61 (d)	Staff and agency reporting duties	
	If the alleged victim is under the age of 18 or considered a vulnerable adult under a State or local vulnerable persons statute, does the agency report the allegation to the designated State or local services agency under applicable mandatory reporting laws?	yes
115.61 (e)	Staff and agency reporting duties	
	Does the facility report all allegations of sexual abuse and sexual harassment, including third-party and anonymous reports, to the facility's designated investigators?	yes
115.62 (a)	Agency protection duties	
	When the agency learns that an inmate is subject to a substantial risk of imminent sexual abuse, does it take immediate action to protect the inmate?	yes
115.63 (a)	Reporting to other confinement facilities	
	Upon receiving an allegation that an inmate was sexually abused while confined at another facility, does the head of the facility that received the allegation notify the head of the facility or appropriate office of the agency where the alleged abuse occurred?	yes
115.63 (b)	Reporting to other confinement facilities	
	Is such notification provided as soon as possible, but no later than 72 hours after receiving the allegation?	yes
